### **MEMORANDUM**

TO: State Agencies

FROM: Dana Hoffer

State Records Manager

**SUBJECT:** Records Retention and Destruction Schedule Manual

DATE: January 4, 2019

In 1967, the South Dakota Legislature established the Records Management Program and the Records Destruction Board. In the same act, the Legislature required every State agency to develop a records retention and destruction schedule and declared that "No record shall be destroyed or otherwise disposed of by any agency of the State unless it is determined by majority vote of such board (Records Destruction Board) that the record has no further administrative, legal, fiscal, research or historical value."

According to Administrative Rule 24:52:11:01, any State government agency planning to destroy agency records shall notify the State Archivist 30 days before the date of the proposed destruction. The request shall include the name or title of the records, inclusive dates, information content of the records, and quantity. This rule applies to all records, including those granted exclusive or continuous disposal authorization by the Records Destruction Board, with the following exceptions: vouchers and supporting documents; warrants; personnel and payroll records; client/case files; capital asset inventories; cash receipts; and duplicate copies of state publications.

The State Archivist has 30 days to certify that the records have no permanent value and may be destroyed, or to make arrangements to transfer the records to the archives. If the Archivist fails to make a recommendation within this time, the records may be destroyed, provided that the agency has received authorization from the Records Destruction Board.

Finally, if you have any questions about implementing this manual or about your records in general, please contact Records Management at 773-3589. We will welcome an opportunity to discuss the proper implementation of sound records management practices.
