Educational/Governmental and Non-Profit Agencies

Greetings,

The National Joint Powers Alliance (NJPA) is the national organization and DBA of the North Central Service Cooperative (NCSC) which was established in 1977. The organization is governed by the NJPA Board of Directors. The board consists of six publicly elected school board members, and two elected officials from cities, counties and other government agencies.

NJPA operates under the authority and directive of M.S 123A.21 and the Uniform Municipal Contract Law M.S 471.345 Subdivision 15. As such, we are a member-owned cooperative serving all schools and educational institutions, public and private, as well as all cities, counties and all nonprofit and governmental agencies. We receive no state or federal aid and have no taxing or levying authority; therefore, we are entirely entrepreneurial. We are a governmental agency strictly acting as a self supporting business. The NJPA purpose is to provide qualified customers nationwide with contracts and services on a cooperative basis.

As a result of a national competitive bidding process NJPA has entered into an exclusive national purchasing contract, on our members' behalf, with Sharp Electronics Corporation (SEC). As the awarded national vendor, SEC offers some of the lowest published prices in the country. This contract is being marketed under the NJPA and will allow all government, education and non-profit entities to enjoy the highest quality equipment and service at the lowest possible discount pricing. This effort is only made possible as we all continue to work together in a unified cooperative manner.

Agency membership is required by NJPA to participate in this cooperative purchasing contract and is accepted and facilitated through the membership statement and customer signature on the initial NCP purchase order process. Membership is at no cost or obligation and can also be facilitated online at www.njpacoop.org .

We would like to offer your agency an opportunity to take advantage of the national cooperative price contract that has been made available through a cooperative purchasing effort between NJPA and Sharp Electronics. For further details on the contract, contact Bruce Ogrodnik for Sharp questions at (651) 735-5840 or email: bruce.ogrodnik@njpacoop.org or David Duhn at NJPA (218) 894-5469, email: David.Duhn@njpacoop.org . Visit our NJPA web page at www.njpacoop.org and click on Contract Purchasing Solutions. Our national service agency extends an invitation for you to join us and enjoy the many advantages of a national cooperative contract. We look forward to expanding our sales and marketing efforts as we strive to meet the needs of our customers. Thank you in advance for your time and consideration.

Sincerely,

Mike Hajek
Director of Business Development and Marketing
NJPA

National Joint Powers Alliance®
 Copier/Facsimile Contract # 100312-SEC
 Effective **November 14, 2012**

- Any other non-profit/ tax-exempt organization

NJPA/ NCP is the final authority for determining the eligibility of an account to use this catalog/ pricing.

7. Leasing and Leasing Eligibility:

- a. **\$1 Buyout (Lease to Ownership) and Fair Market Value leases are available:** For the current lease rates, please contact your National Cooperative Leasing (“NCL”) Account Manager at (320) 763-7600.
 - i. State and Local Government agencies and Political Subdivisions must either:
 1. Sign a NCL Lease Agreement or
 2. Reference this catalog number in the purchase order and reference the leasing language as the relevant language. (See sample Purchase Order)
 - ii. Non-profit organizations, Indian tribes and Federal Government Agencies must sign the appropriate Lease Documentation provided by NCL.
- b. **Fair Market Value Lease:** The Customer must sign a NCL Lease Agreement.
- c. **Municipal \$1 Buyout Lease Terms:**

The following lease provisions apply between the customer and the leasing company. The words YOU and YOUR refer to the (“Lessee”). The words WE, US and OUR refer to the (“Lessor”). The word supplier refers to the installing dealer.

1. Payments.

To the extent Customer desires to lease the equipment from a lease finance company ("Lessor"), Customer agrees to lease the equipment listed on the Purchase Order submitted pursuant to the Agreement. Customer promises to make all lease payments in accordance with the Purchase Order. Lease payments shall be payable in advance and shall commence on the date customer accepts the equipment and continuing thereafter for the term of the lease as provided in the Purchase Order. To the extent customer fails to make the lease payment within five (5) days of the due date, customer agrees to pay Lessor: (1) a late charge of ten (10%) percent of the payment amount or the maximum amount allowed by law, whichever is less, in addition (2) pay default interest on any required payment that is more than one (1) month later calculated at the rate of 18%.

2. Finance Lease Status.

Lessor and customer agree that the Purchase Order, the Agreement and Addendum constitute a FINANCE LEASE AS DEFINED IN ARTICLE 2A OF THE UNIFORM COMMERCIAL CODE. Lessor has no obligation to install, maintain or service the equipment. Lessor shall not be liable for any direct, indirect, special or consequential damages related to the use of the equipment. If the equipment is unsatisfactory for any reason, customer's sole remedy shall be against the manufacturer and supplier of the equipment. NO DEFECT OR UNFITNESS OF ANY ITEM OF THE EQUIPMENT SHALL RELIEVE CUSTOMER OF THE OBLIGATION TO PAY ANY INSTALLMENT OF RENT OR ANY OTHER OBLIGATION UNDER THIS LEASE. CUSTOMER SHALL DEFEND AND HOLD LESSOR HARMLESS FOR ANY LOSS, DAMAGE OR INJURY TO WHETHER IN STRICT LIABILITY, NEGLIGENCE OR OTHERWISE. TO THE EXTENT PERMITTED BY APPLICABLE LAW, CUSTOMER WAIVES ANY AND ALL RIGHTS AND REMEDIES CONFERRED UPON A CUSTOMER BY ARTICLE 2A OF THE UNIFORM COMMERCIAL CODE.

3. Supply Contract; Enforcement of Supplier Warranties

If a Supply Contract has been selected by Customer from Supplier, the Customer acknowledges that Customer has reviewed and approved the Supply Contract covering each item of equipment purchased from the Supplier or that Customer is informed of the name of the Supplier. Customer agrees that Lessor shall not be liable for specific performance of this Lease or for damages if for any reason the Supplier delays or fails to fill the order. Customer understands that it may have rights under the Supply Contract and that it should contact the Supplier for the description of any such rights. So long as Customer is not in default hereunder, Lessor transfers to Customer the warranties, if any, made by the manufacturer or Supplier to Lessor. However, Lessor is not liable to Customer for modification or rescission of any warranty. Customer shall comply with and enforce such warranties.

4. Acceptance.

Supplier will ship the Equipment direct to Customer at the Equipment Location specified in the Purchase Order. Customer will take delivery and upon installation and acceptance of the Equipment will sign and deliver to Lessor the Delivery and Acceptance Receipt submitted by Lessor, thereby warranting to Lessor that the Equipment is (a) as selected by Customer and (b) has been unconditionally accepted by Customer for all purposes under this Lease.

5. Maintenance.

At Customer's own expense, Customer shall maintain the Equipment in the same condition as when delivered, subject only to reasonable wear and tear, and shall replace any damaged parts. Customer will enter into a maintenance agreement for the service of the Equipment at Customer's costs. Customer shall make no alterations to the Equipment without Lessor's prior written consent. Any and all changes made to the Equipment are considered permanent and become part of the Equipment. Customer agrees to house the same in suitable shelter, and not to sell or otherwise dispose of its interest therein or in any Equipment or accessories attached thereto. Lessor may inspect the Equipment and all maintenance records, at any time upon request and may enter upon the premise where the Equipment is located at reasonable times for such purpose.

6. Assignment.

Lessor may assign all or any part of its right, title or interest in this Lease. Each subsequent assignee of a right of Lessor shall succeed to the same right as the original Lessor. Customer hereby agrees that any assignee of Lessor does not assume any obligation of the Lessor. Customer agrees it will not assign, mortgage, sublease, transfer, hypothecate or otherwise convey or dispose of any part of Customer's interest in this Lease or in the Equipment or permit the Equipment or any part of the Equipment to be used by anyone other than Customer or Customer's employees without the prior written consent of Lessor, and any attempted assignment thereof shall be void.

7. Risk of Loss.

Customer assumes the entire risk of loss or damage to the Equipment, whether or not covered by insurance and no such loss shall relieve Customer of its obligations hereunder. Customer agrees to keep the Equipment insured and provide proof of insurance to Lessor to protect all interests of Lessor, at Customer's expense, against all risks of loss or damage from any cause whatsoever for not less than the unpaid balance of the Lease rentals due hereunder or the full replacement value of Equipment, whichever is higher and to purchase insurance in an amount satisfactory to Lessor to cover the liability of Lessor for public liability and property damage. Said insurance policies and the proceeds there from shall be the sole property of Lessor and Lessor shall be named as an insured in all policies and as sole loss payee in the policies insuring the Equipment.

8. Use of Equipment; Taxes.

Customer agrees to use, operate and maintain the Equipment in accordance with all laws; to pay all taxes, licensing and registration fees for the equipment to keep the same free from levies, liens and encumbrances.

9. Remedies.

In the event Customer shall default in the payment of any rent or other payment obligation hereunder or in the event of any other breach of the terms and conditions of this Lease; or if execution or other writ or process shall be issued in any action or proceedings, against the Customer, whereby any item of Equipment may be taken or detained; or if a proceeding in bankruptcy, receivership or insolvency shall be instituted by or against the Customer or its property, or if the Customer shall enter into any agreement or composition with its creditors, breach any terms of any other agreement between the parties hereto or of any loan or credit agreement with a third party, or if the condition of the Customer's affairs shall so change as to, in the Lessor's opinion, impair the Lessor's security or increase the credit risk involved, or if the Customer shall merge, consolidate or transfer all or substantially all of its assets, the Lessor shall have the right to: (1) retake immediate possession of its Equipment without Court Order or other process of law and for such purpose, the Lessor may enter upon any premises where the Equipment may be and may remove the same there from with or without notice of its intention to do same, without being liable to any suit or action or other proceeding by the Customer. Lessor may, at is option, sell the

Equipment at public or private sale for cash or on credit and may become the purchaser at such sale; (2) accelerate the balance of rentals and other sums payable there under("Default Obligation"), thereby requiring prepayment of this Lease with all such rentals due and to make such payment after this notice and demand, Lessor shall be entitled to institute appropriate legal proceedings against Customer with the Customer being responsible for the default obligation, court costs and reasonable attorney's fee not to be less than an amount equal to 33.33 percent of the default obligation; (3) take possession with the Equipment all copies of the code, manuals and databases associated with software licensed to Customer as part of the Equipment, cause Customer's software license to be terminated and support thereof to be discontinued; and (4) exercise any other remedies authorized by Article 2A of the Uniform Commercial Code or other statutes and common laws. The rights granted the Lessor therein, shall be cumulative, and action upon one shall not be deemed to constitute an election or waiver of the other right of action, or any other right to which Lessor may be entitled. All sums becoming immediately due and payable shall be construed as liquidated damages rather than as a penalty. The Customer shall remain and be liable for the return of the Equipment and any loss of, destruction of, or injury to the equipment, in the same manner as herein provided

10. No Waiver of Default.

The omission by Lessor at any time to enforce any default or right reserved to it, or to require performance of any of the terms, covenants or provisions hereof by the Customer at any time, shall not be a waiver of any such default or right to which the Lessor is entitled, nor shall it in any way affect the right of the Lessor to enforce such provisions thereafter. The Lessor may exercise all remedies simultaneously, pursuant to the terms hereof, and any such action shall not operate to release the Customer until the full amount of the rentals due and to become due, and all other sums to be paid hereunder have been paid.

11. Non-Appropriation.

If Customer (a) is a government entity; (b) is not allotted funds for the next fiscal year to continue leasing the Equipment; (c) has no funds for the purchase, Lease or Rental of Equipment performing similar functions to those performed by the Equipment; and (d) has no funds for any other sources (collectively, a Non-Appropriation:), then Customer may terminate this Lease at the end of the then current fiscal year, and Customer will not be obligated to make payments beyond the end of the then-current fiscal year, except Customer will be obligated to return the Equipment to Us at Customer's sole expense. If within one (1) year after termination for Non-Appropriation, Customer appropriates funds to purchase, Lease or Rent Equipment performing functions similar to those performed by the Equipment, then it will be conclusively deemed that monies have been appropriated for the continuance of this Lease and at Lessor's sole option, this Lease may be automatically reinstated.

12. Government Warranties.

Customer represents and warrants that: (a) Customer is a duly organized public body corporate and politic with full power and authority to enter into and perform its obligations under this Lease; (b) all necessary actions of Customer governing body have been taken and all necessary procedures have been complied with to give full effect to the execution, delivery and performance of this Lease; (c) this Lease is valid, binding and enforceable according to its terms; (d) Customer has budgeted and appropriated sufficient fund to make all payments and meet all of its other obligations for the current fiscal year and such funds have not been expended for other purposes; (e) Customer will do all things lawfully within its power to obtain and maintain funds for payments (including providing for such payments in each budget or appropriation request submitted and adopted), to have such portions or budgets or appropriation request approved, and to exhaust all available reviews and appeals in the event such portion of any budget or appropriation request is not approved; (F) Customer has complied with all public bidding requirements applicable to the Agreement and the acquisition of the Equipment; and (g) the Equipment will be used only by Customer and only to perform essential governmental or proprietary functions consistent with the permissible scope of Customer's authority.

Contract Order Process

**Re: NJPA Sharp Contract
Sharp Copier and Fax program Contract # 100312-SEC**

Greetings,

Welcome! We are happy to have you as a participant in our NJPA Sharp Contract. We trust our contract will give you the leverage to gain new business and retain and better serve current customers. This national contract is available to all educational entities, public and private, all cities, counties and governmental agencies, as well as all non-profit organizations including Churches, Hospitals, Nursing Homes, and Power Cooperatives, etc.

Our goal is to provide the very best pricing, allowing for your success in the marketplace. The contract advantages include the easy one step ordering through NJPA, national contract price advantage, and quick order processing from both NJPA and Sharp. Another unique advantage is that this contract has been legally bid nationally by the National Joint Powers Alliance™ (NJPA) through the formal bidding process on behalf of all qualified customers. This process was facilitated in compliance with the state of Minnesota bid laws. Referencing the Minnesota Uniform Contracting Law Minnesota Statute 471.345 Subdivision 15 as a guide, NJPA has satisfied the bidding requirements that eliminates the need for qualified customers to repeat that process, thus saving considerable time. Purchasing requirements vary from state to state.

In order to satisfy the NJPA contract terms, all potential members are **required** to join prior to ordering equipment. Potential members should visit www.njpacoop.org, click on the membership tab and submit for membership. NJPA membership establishes no organizational liability, purchasing commitment or obligation. Dealers may, and are encouraged to, assist customers in completing this membership process.

ORDER PROCESS – Submit orders using the NJPA Purchase Order form with the following information:

- Dealer name, address, phone number and email.
- End user name, physical address, phone number and email.
- Equipment package stock numbers and contract pricing by line item with total.
- Provide tax exemption form when necessary.
- Provide signed lease agreement when NJPA is invoicing leasing company.
- **Dealer and Customer signature required prior to order placement.**

1. Email orders to Dianne.Heldman@njpacoop.org or RaeAnn.Peterschick@njpacoop.org or
- 40 Fax orders to Rae Ann or Dianne at 218-894-5495 or"

SHARP®

Color / B&W Copiers

MX-2615N / MX-3115N Networked Digital Color Copier

A full color ledger-size document system that will meet virtually all of your business needs. Boost workgroup efficiency and productivity with Sharp's MX-2615N/MX-3115N full color Multi-Function Document Systems, designed to deliver amazing image quality and consistent day-to-day performance while also being easy to afford. Features include Standard PCL®6 compatible printing language, a high resolution touch screen color display with graphical user navigation for easy operation, and a total paper capacity up to 3,100 sheets. Equipped with a powerful true multi-tasking controller that allows quick processing of even complex print jobs, the MX-2615N/MX-3115N produces high quality, vibrant color documents in-house, helping you save time and money. Sharp's advanced device management tools make it simple for businesses to control system access, color usage and costs. To make integration with network applications easier than ever, the MX-2615N/MX-3115N supports the Sharp OSA® Development Platform. Sharp's industry-leading security helps assure the confidentiality of your intellectual property. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to safeguard your business's intellectual property. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

Features at a glance

- ◆ 26 / 31 PPM Black & White / 26 / 31 PPM Color Output - **Networked**
- ◆ Paper capacity maximum: 3,100 sheets
 - 600 Sheets Standard: one 500 sheet paper drawer and one 100 sheet bypass tray
 - Optional Stand with (1) x 500 sheet paper drawer
 - Optional Stand with (2) x 500 sheet paper drawers
 - Optional Stand with (3) x 500 sheet paper drawers
 - Optional Stand with (1) x 500 sheet paper drawer + 2,000 sheet tandem paper drawer
- ◆ Standard security feature erases memory on the hard drive by overwriting data up to seven times
- ◆ Powerful true multi-tasking full-color document system
- ◆ Large, high resolution touch-screen color display with graphical navigation
- ◆ Enhanced second generation micro-fine toner technology offers sharp, high-quality images page after page
- ◆ 600 x 600 dpi printing provides clear, crisp images
- ◆ Advanced ImageSEND™ function scans documents to USB devices, network folders, e-mail and more
- ◆ Robust 320 GB HDD with Document Filing System with thumbnail view and image preview features
- ◆ Network ready PCL®6 printing system with direct print function and available PS®3 and XPS options*
- ◆ Supports the Sharp OSA™ development platform, enabling businesses to streamline document workflow and enhance productivity with speed and efficiency*
- ◆ Remote Front Panel feature allows users and administrators to view and control machine operations from a PC workstation*
- ◆ Environmentally friendly design offers low power consumption, fast warm up, compact design and long-life parts and supplies
- ◆ Dimensions 24" (w) x 25-1/2" (d) x 33" (h)
(Measurements for base model without Stand)

MX-2616N / MX-3116N Networked Digital Color Copier

A full color ledger-size document system that helps with all of your business needs. Sharp's MX-2616N/MX-3116N - with all the essential copy, print, color network scan functions and convenient fax option - is an attractive, user-friendly addition to any workplace. To move your business forward, these full-color A3 MFPs from Sharp are the smart choice. Sharp's MX-2616N/3116N full-color multifunction document systems have been meticulously engineered to help businesses maximize their document workflow efficiency while providing outstanding image quality and performance. The MX-2616N/3116N multi-processor design with Standard PCL® 6 Printing System produces brilliant, high-quality color documents as well as razor-sharp monochrome documents at speeds of 26/31 ppm. There is an available 2,000 + 500 sheet Tandem Paper Drawer that fits within the standard footprint of the MFP, offering higher paper capacity without sacrificing valuable office space. The standard 100 sheet Reversing Single Pass Document Feeder scans up to 50 originals per minute, helping to maximize productivity. With Sharp's powerful multi-tasking controller, the MX-2616N/3116N can help save time and money producing professional color documents in-house with breathtaking image quality in a value-packed system. Sharp's advanced device management and Remote Front Panel feature makes it easy to control color usage and costs. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to safeguard your business's intellectual property. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

Features at a glance

- ◆ 26 / 31 PPM Black & White / 26 / 31 PPM Color Output - **Networked**
 - ◆ Paper capacity maximum: 3,100 sheets

MX-2640N / MX-3140N / MX-3640N Networked Digital Color Copier

Sharp's MX-2640N/3140N/3640N color series document systems combine the simplicity of touch-screen menu navigation with robust multi-tasking workflow features that can help virtually any office accomplish more in less time. A large 10.1" (diagonally measured) high-resolution, tilting touch-screen display offers real-time image preview with intuitive flick-and-tap editing to help ensure your documents are produced accurately and without waste. This series also offers many advanced features such as a fully customizable home screen, dynamic action menus that provide feature-specific guidance, and a standard full-size retractable keyboard for easy data entry. Plus, with Pantone licensing, these models offer unprecedented levels of color fidelity – combined with true 1200 x 1200 dpi print resolution, they can help your business produce professional-looking color documents in-house with breathtaking image quality that is also economical. The MX-2640N/3140N/3640N color series has been built on the latest Sharp OSA® development platform, making integration with network applications and cloud services easier than ever. And with Sharp's industry-leading security platform with standard 256-bit data encryption and overwrite protection, you can rest assured that your intellectual property is well protected. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

Features at a glance

 - Optional Stand with 2,000 sheet tandem paper drawer
- ◆ Full-size retractable keyboard allows quick, easy and accurate data entry
- ◆ Large 10.1" high resolution touch-screen display with tilt view and faster response time
- ◆ Standard security feature erases memory on the hard drive by overwriting data up to seven times
- ◆ Quickly scan both sides of a document at once with the standard 150 Sheet Duplexing Single-Pass Feeder
- ◆ Real-time image preview feature with flick, tap and slide navigation, and pinch-and-zoom capability to shrink and enlarge images
- ◆ Fully customizable home screen feature enables users to add custom backgrounds and custom icons for personalization
- ◆ Action menus to provide users with feature-specific guidance
- ◆ 1200 x 1200 dpi printing provides clear, crisp images even on jobs with fine detail
- ◆ Standard Wireless LAN connects to your network or allows users to print to and scan from the device via Sharpdesk® Mobile
- ◆ Compact PDF format can dramatically reduce the file sizes of scanned PDFs, allowing for faster transmission times and decreased traffic on your network
- ◆ Web Browser feature with built in PDF Viewer allows easy access to web-based information and applications
- ◆ Cloud Portal Office Ready
- ◆ ImageSEND™ function scans documents to USB devices, network folders, email and more
- ◆ Scans documents at up to 170 images per minute in both Black and Color
- ◆ Network ready PCL®6 and PS3 printing system with direct print function and available XPS option
- ◆ Document filing system with thumbnail view and image preview features for easy identification
- ◆ Flexible paper handling system feeds up to 80 lb cover through the paper trays and up to 110 lb cover through the bypass tray
- ◆ Energy efficient belt fusing system offers low-power consumption, fast warm up and enhanced image quality
- ◆ Dimensions 25-1/2" (w) x 30" (d) x 38" (h)
(Measurements for base model without Stand)

MX-5140N Networked Digital Color Copier

Sharp's MX-5140N color document system combines the simplicity of touch-screen menu navigation with robust multi-tasking workflow features that can help virtually any office accomplish more in less time. A large 10.1" (diagonally measured) high-resolution, tilting touch-screen display offers groundbreaking real-time image preview with intuitive flick and tap editing to help ensure your documents are produced accurately and without waste. This color series also offers many advanced features such as a fully customizable home screen, dynamic action menus that provide feature-specific guidance, and a full-size retractable keyboard for easy data entry. Plus, with Sharp's enhanced second-generation micro-fine toner technology and true 1200 x 1200 dpi print resolution, this series can help your organization produce professional looking color documents in-house with breathtaking image quality that is also economical. The MX-5140N color copier has been built on the latest Sharp OSA® development platform, making integration with network applications and cloud services easier than ever. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to safeguard your business's intellectual property. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

Features at a glance

- ◆ 51 PPM Black & White / 51 PPM Color Output - **Networked**
- ◆ Paper capacity maximum: 6,600 sheets
 - 1,100 Standard - Two 500 sheet paper drawers and 100 sheet bypass tray
 - Optional Stand with (1) x 500 sheet paper drawer
 - Optional Stand with (2) x 500 sheet paper drawers
 - Optional Stand with 2,000 sheet tandem paper drawer
- ◆ Large 10.1" high resolution touch-screen display with tilt view and faster response time
- ◆ Standard security feature erases memory on the hard drive by overwriting data up to seven times

Unleash the potential of Sharp's advanced technology with the MX-6240N and MX-7040N High-Speed Color Document System. The MX-6240N and MX-7040N combine a flexible, modular design with robust paper handling and productive output capabilities that can streamline your document workflow like never before. Built for high-volume office environments, small CRDs and copy rooms, the MX-6240N and MX-7040N are a perfect fit where productivity and reliability are essential.

A large 10.1" (diagonally measured) high-resolution, touch-screen display offers real-time scan preview with intuitive flick-and-tap editing to help ensure your documents are produced accurately and without waste. With Sharp's next-generation micro-fine toner technology combined with 1200 x 1200 dpi print resolution and true Adobe® PostScript®, your business can produce professional looking color documents in-house with breathtaking image quality that is also economical. Sharp's Color Consistency System helps ensure brilliant, high-quality color output page after page. A new paper feed option utilizes air-feed technology, which offers higher reliability and enhanced media capabilities. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to safeguard your business's intellectual property. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

Features at a glance

- ◆ 62 / 70 PPM Black & White - 62 / 70 PPM Color Output - **Networked**

MX-6500N / MX-7500N Pro Series Digital Color Document System

The MX-6500N and MX-7500N high performance color document systems offer exceptional productivity, professional features and world-class image quality at speeds up to 75 ppm. Designed for busy in-plant and on-demand workflow environments, these new models combine a versatile, modular design with a wide range of supported media and powerful output capabilities that can help your business produce more jobs in-house and improve profitability. Edge-to-edge printing enables operators to output high quality, full-bleed booklets in-line, helping to reduce outsourcing costs as well as production time. A powerful external Fiery® Color Print Server with Command WorkStation® is available for color critical environments that need precision job management. Command WorkStation is fully integrated with the Sharp touch-screen for unmatched control and ease-of-use. Sharp's exclusive triple air-feed paper handling option provides higher reliability for maximum uptime as well as enhanced media support, and is virtually maintenance free. The MX-6500N and MX-7500N also support Sharp OSA® technology, which makes integration with network applications and cloud services simple and easy. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to help safeguard your business's intellectual property. When it comes time to trade in, a convenient End-of-Lease feature can erase all job and user data.

Features at a glance

- ◆ 65 / 75 PPM Black & White - 65 / 75 PPM Color Output - **Networked**
- ◆ Paper capacity maximum: 13,500 sheets
 - 3,000 Sheets Standard Paper Capacity - Tandem Sheet Drawer: One 1,200 sheet paper tray, One 800 sheet paper tray and Two 500 sheet paper trays
 - Optional 3,000 sheet letter / legal / ledger-size large capacity cassette
 - Optional 3,500 sheet letter large capacity tray
 - Optional 5,000 sheet letter / legal / ledger-size large capacity tray
- ◆ Advanced finishing options including a multi-folding unit and multi-position staple and saddle finisher selection
- ◆ Edge-to-edge printing enables operators to output high quality, full-bleed booklets in-line, helping to reduce outsourcing costs as well as production time
- ◆ A powerful external Fiery® Color Print Server with Command WorkStation® is available for color critical environments that need precision job management. Command WorkStation is fully integrated with the Sharp touch-screen for unmatched control and ease-of-use.
- ◆ Triple air-feed paper handling option offers high reliability and is virtually maintenance free
- ◆ Web browser feature allows easy access to web-based information
- ◆ Supports the latest Sharp OSA® development platform
- ◆ Large 15.4" high resolution color touch-screen display with integrated keyboard
- ◆ Award-winning Sharp security platform with standard 256-bit data encryption and up to 7 times data overwrite protection
- ◆ Quickly scan both sides of a document at once with the standard 150 Sheet Duplexing Single-Pass Feeder
- ◆ Real-time image preview feature with flick, tap and slide menu navigation
- ◆ Fully customizable home screen feature enables users to add custom backgrounds and custom icons for personalization
- ◆ 1200 x 1200 dpi printing provides clear, crisp images even on jobs with fine detail
- ◆ Scans documents at up to 150 images per minute in both Black and Color
- ◆ Network ready PCL®6/PS3 printing system with direct print function and available XPS options
- ◆ Flexible paper handling system feeds up to 110 lb (300 gsm) cover stock through paper trays and through bypass tray even when duplexing
- ◆ Energy efficient belt fusing system offers low-power consumption, fast warm up and enhanced image quality
- ◆ Dimensions 33-1/4" (w) x 33-1/4" (d) x 48" (h)

SHARP®

Black & White Copiers

MX-B201D Digital Copier

The Sharp MX-B201D Digital Multifunction Document System is big on performance, but compact in size. Designed for small offices and workgroups, the MX-B201D delivers all the required features for fast-paced, small office environments. With 20 page-per-minute copying/printing and integrated color scanning, your office workflow won't miss a beat. A 50 sheet document feeder provides standard 2-sided scanning for extra efficiency, as well as duplex printing and copying. The cost-effective, consumable system utilizes a three-component system that's easy to replace and easy on your wallet. And since business never stands still, the MX-B201D offers flexible options to add Super G3 faxing, networking and web-based management...so you'll be ready for anything.

Features at a glance

- ◆ 20 PPM Compact Desktop Digital Copier with high-quality 600 dpi output
- ◆ Up to 100-Page Electronic Sorting and Offset Output Stacking allows copying of multiple sets quickly and efficiently
- ◆ 50-sheet Reversing Single Pass Feeder with standard 2-sided PC scanning
- ◆ Paper capacity maximum: 550 sheets
 - Standard 250 sheet paper drawer and 50 Sheet multi-purpose bypass tray handles different size paper ranging from 3 1/2" x 5 1/2" up to 8 1/2" x 14" as well as envelopes, labels, and transparencies
 - Optional 250 sheet paper drawer
- ◆ 25% to 400% zoom magnification with eight preset modes for easy image-to-paper sizing
- ◆ Scan and send documents to a variety of destinations for easy distribution
- ◆ Copy both sides of an ID card, and print both images on a single page with the ID Card Shot feature (standard)
- ◆ Optional Network Expansion Kit with 10Base-T/100Base-TX Ethernet, Network PCL®6 Printing and Network Scanning
- ◆ Optional PostScript®3™ compatible Expansion Kit

MX-M232D Digital Copier

The Sharp MX-M232D delivers the advanced performance needed for today's small office—all in a value-driven, multifunction document system. This 23 ppm versatile performer comes equipped with electronic sorting as well as 600-dpi speed-enhanced PC printing. But that's not all! The MX-M232D also offers full-color ledger-size PC scanning—enabling you to share or archive documents with just a few keystrokes. With up to 1,100 sheet paper capacity, this robust MFP can easily keep pace with even the most demanding offices. And, with flexible connectivity options such as PCL®6 and PS®3 network printing, network scanning and Super G3 faxing, the Sharp MX-M232D can easily help grow your business.

Features at a glance

- ◆ 23 PPM Compact Digital Copier
- ◆ Standard 40 sheet Reversing Single Pass Feeder
- ◆ Electronic sorting
- ◆ Automatic duplexing
- ◆ Scan once, print many
- ◆ Continuous copy up to 999 and card shot copy feature
- ◆ 600 DPI host based PC printing system
- ◆ Paper capacity maximum: 1,100 sheets
 - Standard (2) x 250 sheet paper drawers and 100 sheet bypass tray (600 sheets total)
 - Optional (1) x 250 or (2) x 250-sheet additional paper drawers
- ◆ Full color 600 x 600 dpi PC scanning
- ◆ 128 MB standard memory upgradeable to 256 MB with options
- ◆ Reduction and enlargement: 25 - 400% with 8 preset ratios
- ◆ Cost efficient toner save mode
- ◆ First copy out time of 5.9 seconds
- ◆ Quick warm-up time 25 seconds or less
- ◆ Sharpdesk integrated desktop document management software
- ◆ Easy configuration of 6 one-touch scan-to-desktop keys
- ◆ Standard USB 2.0 port
- ◆ Dimensions: 23-1/2" (w) x 22-3/4" (d) x 27-1/4" (h)

MX-M264N / MX-M314N / MX-M354N Networked Digital Copier

In today's fast-paced business environment, you need to operate at peak efficiency. With Sharp's MX-M264N / M314N / M354N Monochrome Document Systems, you'll be able to raise office productivity to a new level. Offering enhanced versatility, Sharp's Monochrome Document Systems deliver everything your business needs to get ahead with up to 35-ppm copying and printing, color network scanning, and integrated multi-tasking capabilities - all this, while being easy to afford. Features include a high resolution touch-screen color display with graphical user navigation for easy operation. A powerful true multi-tasking controller offers quick processing of even complex print jobs. The MX-M264N / M314N / M354N Document Systems also produce crisp, clear documents in-house, helping you save time and money. Sharp's advanced device management tools make it simple for businesses to control access and usage. To make integration with network applications easy, the MX-M264N / M314N / M354N Document Systems support the Sharp OSA® development platform. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to safeguard your business's intellectual property. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

Features at a glance

- ◆ 26 / 31 / 35 PPM Digital Duplex Copier - Networked
- ◆ Up to 1200 DPI (Enhanced) with standard PCL6 print controller
- ◆ Optional hard disk drive provides the ability to overwrite data up to seven times
- ◆ Paper capacity maximum: 2,100 sheets
 - Standard (2) x 500 sheet paper drawers and 100 sheet bypass tray
 - Optional (1) or (2) x 500 sheet paper drawers
- ◆ Automatic trayless duplex copying and printing
- ◆ 100 sheet reverse single pass feeder
- ◆ Electronic sorting
- ◆ Large 7" Touch-screen LCD Display
- ◆ Mixed size original detection
- ◆ Reduction and enlargement: 25 - 400% (1% increments)
- ◆ 2 GB total standard memory
- ◆ Standard network full-color scanning
- ◆ Standard USB 2.0 port
- ◆ SSL (Encrypted Network Protocol Support) HTTPS/IPPS
- ◆ Dimensions: Approximately 24½" (w) x 25½" (d) x 31½" (h)

MX-M364N / MX-M464N / MX-M564N

Networked Digital Copier

The MX-M364N, MX-M464N and MX-M564N Essentials Series monochrome document systems offer flexible multitasking workflow features and high quality output at speeds up to 56 pages-per-minute. Designed for busy workgroup environments, these models combine versatile paper handling with robust finishing options in a compact modular design that is also affordable. The Sharp Essentials Series can help virtually any office accomplish more in less time.

These models include standard full multifunction capability out-of-box copying, PCL® 6 network printing and color network scanning for today's demanding office environments. They also offer a high-capacity tandem paper drawer and productive inner finisher options that provide high functionality in a compact footprint. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to safeguard your business's intellectual property. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

The MX-M364N, MX-M464N and MX-M564N monochrome document systems have been built on the Sharp OSA® development platform, making integration with network applications and cloud services easier than ever. And Sharp's energy efficient design offers low power consumption and fast warm-up time.

MX-M365N / MX-M465N / MX-M565N

Networked Digital Copier

The MX-M365N, MX-M465N and MX-M565N Advanced Series monochrome document systems offer powerful multitasking workflow features and exceptional image quality at speeds up to 56 pages-per-minute. Designed for busy workgroup environments, these models combine a versatile modular design with tablet-style menu navigation and powerful output capabilities that can help virtually any office accomplish more in less time.

These models include standard out-of-box wireless networking and true Adobe® PostScript® 3™ network printing that offer enhanced compatibility with today's modern office environments. They also offer a high-capacity tandem paper drawer and productive inner finisher options that provide high functionality in a compact footprint. The Advanced Series support Cloud Portal Office, a new content management software service from Sharp for storing and sharing scanned documents and other electronic files. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to safeguard your business's intellectual property. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

The MX-M365N, MX-M465N and MX-M565N monochrome document systems have been built on the Sharp OSA® development platform, making integration with network applications and cloud services easier than ever.

MX-M623N Networked Digital Copier

Precision engineered to help increase workflow efficiency and provide exceptional image quality, Sharp's MX High-Speed Monochrome workgroup document system takes you to the next level in MFP performance and productivity. A large customizable, high resolution touch-screen color display with graphical menu navigation and a full-size retractable keyboard to simplify data entry are just two of the many advanced features offered on this model. The powerful 800 MHz true multi-tasking controller enables users to save time and money while producing professional documents in-house - robust performance that is also economical. Sharp's advanced device management makes it easy to control usage and costs. With the latest Sharp OSA® development platform, integration with network applications has never been easier. And, to help safeguard the confidentiality of your intellectual property, Sharp's industry-leading security suite is second to none.

Features at a glance

- ◆ 62 PPM Digital Copier - Networked
- ◆ 1200 x 1200 dpi printing provides clear, crisp images, even on jobs with fine detail
- ◆ Paper capacity maximum: 6,600 sheets
 - Standard 2,000 sheet paper drawer, (2) x 500 sheet paper drawers and 100 sheet bypass tray
 - Optional 3,000 sheet large capacity tray (letter / legal / ledger) or a 3,500 sheet large capacity tray (letter)
- ◆ Large high resolution touch-screen color display with graphical navigation
- ◆ Standard 80GB Hard Drive
- ◆ Standard 150 sheet duplexing single pass feeder with color Scan² Technology minimizes paper misfeeds and enhances reliability
- ◆ 800 MHz true multi-tasking controller
- ◆ Standard retractable keyboard
- ◆ ImageSEND™ function with blank-page skip scans documents to e-mail, network folders and USB devices
- ◆ Network interface supports gigabit ethernet
- ◆ Remote front panel feature allows users and administrators to view and control machine operations from a PC workstation
- ◆ Sharp OSA® development platform with standard application communication module and external accounting module
- ◆ Standard PCL6/PCL5e printing system with direct print function and available Postscript 3 and Windows XPS options
- ◆ Dimensions: 29"(w) X 27"(d) X 48"(h)

MX-M904 / MX-M1054 / MX-M1204 Networked Digital Duplicator

From walk-up office environments and corporate data centers to high-volume CRD and copy rooms, Sharp's top-of-the-line MX-M904, MX-M1054 and MX-M1204 High-Speed Light Production Monochrome Series provide advanced technology and features that will streamline your document workflow like never before. The MX-M904, MX-M1054 and MX-M1204 have been designed from the ground up to handle the rigorous demands of high volume environments. With three engine speeds (90ppm, 105ppm and 120ppm), standard networking and flexible configurations these high volume workhorses are a perfect fit where productivity and reliability are essential.

A large 10.1" (diagonally measured) high-resolution, touch-screen display offers real-time scan preview with intuitive flick-and-tap editing to help ensure your documents are produced accurately and without waste. With Sharp's micro-fine toner technology combined with 1200 x 1200 dpi print resolution and true Adobe® PostScript®, your business can produce professional looking monochrome documents with razor-sharp image quality that is also economical. A new paper feed option utilizes air-feed technology, which offers higher reliability and enhanced media capabilities.

Built on the latest Sharp OSA® development platform, the MX-M904, MX-M1054 and MX-M1204 make integration with network applications and cloud services easier than ever. Sharp's industry-leading security platform incorporates standard 256-bit data encryption and overwrite protection to safeguard your business's intellectual property. When it comes time to trade in, a convenient standard End-of-Lease feature can erase all job and user data.

Features at a glance

- ◆ 90 / 105 / 120 PPM Black & White Output - **Networked**
- ◆ Paper capacity maximum: 13,500 sheets
 - 3,000 Sheets Standard Paper Capacity - Tandem Sheet Drawer: One 1,200 sheet paper tray, One 800 sheet paper tray and Two 500 sheet paper trays
 - Optional 3,000 sheet letter / legal / ledger size large capacity cassette - only for MX-M904
 - Optional 3,500 sheet letter size large capacity cassette
 - Optional 5,000 sheet letter / legal / ledger size large capacity tray
- ◆ Full-size retractable keyboard allows quick, easy and accurate data entry
- ◆ Advanced finishing options including a multi-folding unit and multi-position staple and saddle finisher selection
- ◆ Web browser feature allows easy access to web-based information
- ◆ Supports the latest Sharp OSA® development platform
- ◆ Large 10.1" high resolution touch-screen display with tilt view
- ◆ Award-winning Sharp security platform with standard 256-bit data encryption and up to 7 times data overwrite protection
- ◆ Quickly scan both sides of a document at once with the standard 250 Sheet Duplexing Single-Pass Feeder
- ◆ Real-time image preview feature with flick, tap and slide menu navigation
- ◆ Fully customizable home screen feature enables users to add custom backgrounds and custom icons for personalization
- ◆ Triple air-feed paper handling option offers high reliability and is virtually maintenance free
- ◆ 1200 x 1200 dpi printing provides clear, crisp images even on jobs with fine detail
- ◆ Scans documents at up to 208 images per minute (Monochrome or Color)
- ◆ Network ready PCL®6/PS3 printing system with direct print function and available XPS options
- ◆ Flexible paper handling system feeds up to 110 lb cover stock through paper trays and through bypass tray
- ◆ Energy efficient belt fusing system offers low-power consumption, fast warm up and enhanced image quality
- ◆ Dimensions 46-3/4" (w) x 31-1/4" (d) x 48-3/4" (h)
(Measurements for base model without stand)

ENVIRONMENTAL CONSERVATION

Sharp's ongoing commitment and dedication to developing eco-friendly document systems set a high standard for the industry

Sharp's commitment to the environment sets a high standard for the industry.

Designed with a Strong Commitment to Protecting the Environment

Our document systems utilize Sharp's second generation micro-fine toner technology, which offers a lower consumption rate than conventional toners. This also results in less packaging material and longer replacement intervals. Additionally, all Sharp supplies are packaged using fully recyclable materials. Power consumption on the Sharp MFPs is among the lowest in the industry and supports two different energy saving modes to reduce or shut off power after a set interval. All Sharp document systems belong to the EnergyStar® program, and RoHS program.

An Economical, Low Maintenance Color Document System That Makes Sense

Sharp MFPs are designed to accommodate both large and small office environments. With a compact wingless design, the footprint of each base model is less than 25" x 27". Our new long-life consumable parts and supplies minimize service intervals and down time, helping result in lower operating costs.

Sharp's Environmental Leadership

As a testament to our commitment to the environment, Sharp was a former recipient of the Excellence in Partnership Green Contractor Award and the Evergreen Award from the U.S. Government's General Services Administration and the Coalition for Government Procurement.

The **Green Contractor Award** recognizes contractors that have made the best overall commitment to the environment by offering environmentally friendly products and services or adhering to environmentally sound manufacturing procedures.

The **Evergreen Award** identifies environmentally-friendly businesses and their efforts in recycling and waste reduction practices. Please visit www.sharppusa.com/environment to learn more about our environmental leadership.

Toner Recycling Program

As part of our commitment to preserving the environment, Sharp has partnered with a zero waste to landfill recycler for recycling all Sharp consumables including cartridges, bottles, waste collection containers and drum units. Customers can participate in Sharp's free Stop, Drop, Recycle Program by visiting our website: www.sharppusa.com/recycle.

HEIGHTENED SECURITY ENSURES CONFIDENTIALITY

"Most Secure MFP Range"
2009 Award
6th Consecutive Year

Sharp's industry-leading document and device protection ensures confidentiality and safeguards your assets.

Authority Groups and Access Control

Advanced account management enables administrators to set authority groups for access to features of the new Frontier workgroup laser printers. Administrators can control which department, for instance, has full printing access. Walk up users enter a code, Local Name and Password, or LDAP User Authentication to access the features assigned to their group. Users can also login utilizing a USB enabled card reader for magnetic stripe cards or proximity cards.*

Data Erase and Encryption*

To help protect your data, Sharp MFPs offer an optional data security kit that encrypts document data using **AES** (Advanced Encryption Standard) **encryption**. The data security kit erases the temporary memory on the hard drive by overwriting the encrypted data up to seven times, offering an unprecedented level of assurance. Additionally, the data security kits for these models comply to the new IEEE 2600TM-2008 security standard for hardcopy devices. This new standard specifies security requirements and provides a new international reference to assess contemporary MFP security.

Control Device Access Over the Network

To help restrict access to the device over the network, Sharp MFPs offer IPsec, SMB and extended support for **SSL Encryption** (Secure Sockets Layer), **IP/MAC address filtering**, IEEE 802.1x authentication, protocol enable/disable and port management for maximum security.

Documents Remain Confidential

To help protect your printed documents from unauthorized viewing, Sharp MFPs offer encrypted PDF files for printing, as well as **Confidential Printing** that requires users to authenticate to the device in order to print a queued document. So compliance with security standards and industry regulations is easier.

Tracking and Auditing Information

Legislation and industry policies require companies to be more aware of information flow from their offices. Sharp offers both built-in and additional hardware/software which allows users to control, access, and track usage of each device on the network.

These scalable security offerings aim to protect your intellectual property, preserve confidential information and help your business to meet regulatory requirements, such as the Health Insurance Portability and Accountability Act (HIPAA), and the Gramm Leach Bliley Act (GLB).

For additional information visit: www.sharppusa.com/security.

Protect Your Data

As the leader in office equipment security, Sharp makes it easy for any business or government entity to safely deploy and facilitate secure printed documents.

*Some features may require optional equipment.
