UPGRADE OPTIONS

Please Note: Installation requirements vary greatly and are dependent on the particular upgrade to be performed. In some cases, an upgrade will necessitate the installation of internal assemblies, requiring the MRx device to be disassembled and serviced by a qualified technician. This may be accomplished in one of three different ways:

- The local Field Service Engineer (FSE).
 - For on-site upgrades, there is a flat rate of \$365 per device regardless of the number of upgrades (890500 opt. A13)
 - Pricing varies by zip code so contact your local FSE or Travel Zone Administrator (TZA@philips.com)
 - A Resuscitation Medical Order Checklist (MOC) is required (this is an excel spreadsheet)
 - Part number and dollar value are established using the MOC
- The Philips bench in Andover.
 - For bench upgrades, there is a flat rate of \$350 per device regardless of the number of upgrades (890500 opt. A13)
 - A Resuscitation Medical Order Checklist (MOC) is required (this is an excel spreadsheet)
 - Upgrade is typically performed by the US repair bench in 24-48 hours, then the unit is shipped back to the customer
 - If the customer requires a loaner, contact Marie Marr at (978) 659-4254. Loaner cost is an additional \$414 per device. A loaner can be requested at during quoting/ordering.
- By a Philips-certified hospital biomed (instructions are included with each upgrade)

Note: Resuscitation is not part of the OPIE MOC for Patient Monitoring; the Resuscitation MOC is an excel spreadsheet.
