DEPARTMENT OF HEALTH

RECORDS RETENTION AND DESTRUCTION SCHEDULE

State of South Dakota

Bureau of Administration

Records Management Program

(605) 773-3589
MEMORANDUM

TO: State Agencies

FROM: Dana Hoffer
State Records Manager

SUBJECT: Records Retention and Destruction Schedule Manual

DATE: December 22, 2016

In 1967, the South Dakota Legislature established the Records Management Program and the Records Destruction Board. In the same act, the Legislature required every State agency to develop a records retention and destruction schedule and declared that “No record shall be destroyed or otherwise disposed of by any agency of the State unless it is determined by majority vote of such board (Records Destruction Board) that the record has no further administrative, legal, fiscal, research or historical value.”

According to Administrative Rule 24:52:11:01, any State government agency planning to destroy agency records shall notify the State Archivist 30 days before the date of the proposed destruction. The request shall include the name or title of the records, inclusive dates, information content of the records, and quantity. This rule applies to all records, including those granted exclusive or continuous disposal authorization by the Records Destruction Board, with the following exceptions: vouchers, original and copies, and supporting documents; warrants, original and copies, multiple copies of State publications stored in bulk; obsolete blank forms; photocopies of computer printouts; and original copies of records that have been legally reproduced under the provisions of SDCL 1-27-4.

The State Archivist has 30 days to certify that the records have no permanent value and may be destroyed, or to make arrangements to transfer the records to the archives. If the Archivist fails to make a recommendation within this time, the records may be destroyed, provided that the agency has received authorization from the Records Destruction Board.

Finally, if you have any questions about implementing this manual or about your records in general, please contact Records Management at 773-3589. We will welcome an opportunity to discuss the proper implementation of sound records management practices.
PETITION FOR AUTHORITY TO DESTROY RECORDS

I, Doneen Hollingsworth (name), acting in my position as Secretary of the Department of Health (title), request that the South Dakota State Records Destruction Board consider the attached “Records Retention and Destruction Schedule” pursuant to SDCL 1-27-13, 1-27-14, 1-27-19 and ARSD 10:03:01-02.

The records petitioned to be destroyed are described in the “Record Retention and Destruction Schedule” Authorization of the Department of Health (department) consists of 137 pages and contains record series number(s) DOH-1 (consecutively re-numbered) through DOH-226.

The authority requested is to destroy each record described in the attached Schedule at the expiration of the time provided for the retention of each record.

The undersigned certifies that the retention for each and every record petitioned to be destroyed does not violate any minimum retention time required by state statute; will allow for required state and federal audits to be performed or the time within which to make said audits to pass; and will allow for all applicable statutes of limitations to pass for all state contracts and Surety Bonds.

Doneen Hollingsworth, Secretary of the Department of Health

11-5-07

Date

The above and foregoing Petition is hereby recommended for approval by the State Records Destruction Board.

Dana Hoffer, State Records Manager

11-13-07

Date

DESTRUCTION AUTHORITY

I hereby certify that the State Records Destruction Board met on the __14th__ day of __November__, 2007, and authorized the destruction of the records described in the foregoing Petition at the expiration time provided for their storage.

Signature, Chairman of the Board

PETITION FOR AUTHORITY TO DESTROY RECORDS

I, Doneen Hollingsworth (name), acting in my position as Secretary of the Department of Health (title), request that the South Dakota State Records Destruction Board consider the attached "Records Retention and Destruction Schedule" pursuant to SDCL 1-27-13, 1-27-14, 1-27-19 and ARSD 10:03:01-02.

The records petitioned to be destroyed are described in the "Record Retention and Destruction Schedule" Authorization of the Department of Health (department) consists of 6 pages and contains record series number(s) DOH-74, DOH-124, DOH-125, DOH-141, DOH-149, and DOH-164.

The authority requested is to destroy each record described in the attached Schedule at the expiration of the time provided for the retention of each record.

Authority is also requested to delete "Records Retention and Destruction Schedule" Authorization of the Department of Health (department) record series numbers(s) DOH-76, DOH-115, DOH-131, DOH-135, DOH-139, DOH-144, and DOH-165.

The undersigned certifies that the retention for each and every record petitioned to be destroyed does not violate any minimum retention time required by state statute; will allow for required state and federal audits to be performed or the time within which to make said audits to pass; and will allow for all applicable statutes of limitations to pass for all state contracts and Surety Bonds.

Doneen Hollingsworth, Secretary of the Department of Health 12-1-08 Date

The above and foregoing Petition is hereby recommended for approval by the State Records Destruction Board.

Dana Hoffer, State Records Manager 12-11-08 Date

DESTRUCTION AUTHORITY

I hereby certify that the State Records Destruction Board met on the 11th day of December, 2008, and authorized the destruction of the records described in the foregoing Petition at the expiration time provided for their storage.

Signature, Chairman of the Board 12-11-08 Date

DOH-1. **ADMINISTRATIVE REFERENCE FILES:**

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Budget information, general correspondence and organizational files are subject to archival screening prior to disposal.)

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)

(Note: Previous record series number was HEA-1)

---

DOH-2. **CASH RECEIPT BOOKLETS:**

This series is arranged numerically and contains copies of all receipts for money. Information may include: date issued, received from, address, amount, form of payment, purpose, and signature of receiver. This record series is maintained for audit purposes.

**RETENTION:** Retain full book 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-5)
### DOH-3. CONTRACTS AND AGREEMENTS FILES:

This series contains contract and agreements between the Health Department and third parties or interagency agreements. The series is maintained to insure compliance with terms, to draw up new agreements, for fiscal control, and for audit purposes.

**RETENTION:** FINANCE OFFICE: Retain 1 year in office, then microfilm and maintain for 14 years. Destroy 15 years after terminated provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-8)
DOH-4. GRANT FILES:

This series is arranged alphabetically by grant name and contains information concerning grants awarded to the Health Department. Information may include: grant application, working papers, grant documentation, amounts, instructions concerning the purposes for which the money is spent, and monitoring and accounting records. This record series is used for administering current grants, for reference when requesting new grant funding, and for audit purposes.

RETENTION: FINANCE OFFICE: Retain unsuccessful applications information 2 years in office, then destroy. Retain successful applications and reviews 2 years in office, then transfer to storage for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

FINANCE OFFICE: Retain Grant Award Books 15 years past the project ending period for the grant or notification by the Federal Government of finalization of the grant, then destroy.

(Note: Document imaging system exists. Convert digital images to microfilm when volume warrants.)

ALL OTHERS: Retain current in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-11)
DOH-5.  **LEGAL COUNSEL WORKING PAPERS:**

This series is arranged alphabetically by file name and contains the Department of Health’s Legal Counsel Working Papers. Information may include: working papers, correspondence, reports, and project information. This record series is used for reference by the Department of Health’s Legal Counsel, Division Director, and/or Finance Officer.

**RETENTION:** Retain in office until legal matter has been resolved, then microfilm completed files and maintain film for 50 years. Destroy after 50 years.

(Note: Previous record series number was HEA-17)

---

DOH-6.  **RECORDS MANAGEMENT FILES:**

This series contains the completed forms used to track inactive records that have been sent to Records Management (RM) Storage; and the department’s “Records Retention and Destruction Schedule” (RRDS). Information may include: standard records transfer receipt forms, microfilm project registration forms; and microfilm and box destruction authorization forms. This record series is maintained for tracking records sent to Records Management storage, to document the time each record series must be legally maintained, and to document authorization granted to RM for destruction of obsolete records.

**RETENTION:** RECORD DESTRUCTION AUTHORIZATION FORMS: Retain 3 years in office, then destroy.

ALL OTHER INFORMATION: Retain current in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-30)
DOH-6.1. **SURPLUS PROPERTY FILES:**

This series contains the form submitted to the director of South Dakota Property Management for approval to dispose of State-owned personal property and the written notification received from Property Management designating the manner of disposal. Information may include: agency name; date; address or location of property; phone number; name of individual requesting; Property Management Officer’s name; description of item(s); quantity; serial number; equipment number; desired method of disposal as authorized; reason for declaring property as surplus; estimate of current value; suggested selling price; minimum acceptable price; statement of content; fixed asset number, if applicable; and any other information deemed necessary. This record series is maintained pursuant to SDCL 5-24A.

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.
DOH-6.2. CORRECTIONAL HEALTH PATIENT CASE RECORDS:

This series is arranged chronologically by year of release, then alphabetically by inmate’s last name and contains all related documentation concerning services provided to patients by the Correctional Health staff; medical records obtained for care prior to incarceration; and medical records obtained from specialty providers while incarcerated. Information may include, but is not limited to: patients’ name and personal information, progress notes, laboratory results, dictation, x-rays, dental records, medication administration records, doctors’ orders, consent forms, and related correspondence. This record is maintained as a testimony of medical services provided to the individual patient.

RETENTION: Retain 8 years after date of release from incarceration, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.
DOH-7. **ABORTION REPORTS:**

These reports are required by law to be submitted by physicians and contain information used to verify the data submitted by the abortion facilities and to prepare data reports about abortions performed in South Dakota. Reports include: the Induced Report of Abortion, the Voluntary and Informed Consent Form, and the Parental Notification Form. Information includes those items prescribed by statute. This information is encoded into the computer and is maintained for statistical reporting purposes.

**RETENTION:** PAPER RECORDS: Retain in office until data has been encoded and verified to be accurate and complete with the abortion facility, then destroy.

DATABASE: Retain information permanently.

(Note: Previous record series number was HEA-64)

DOH-8. **ADMINISTRATIVE REFERENCE FILES:**

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)
### DOH-9. ANNUAL REPORT ORIGINAL FILES:

This series is arranged alphabetically and contains the printing originals of each document or study developed by the Program. Reports may include, but is not limited to: the South Dakota Vital Statistics Report: A State and County Comparison of Leading Health Indicators, which is the annual statistical report summarizing vital statistics in South Dakota; and The Health Behaviors of South Dakotans. This information is maintained for statistical analysis, for reporting purposes, and for monitoring public health programs. This record series is maintained for reuse and for reference purposes when reprinting the document.

**RETENTION:** Retain permanently in office.

(Note: File copies of the publication with the State Library pursuant to SDCL 14-1A-3 and Administrative Rule 24:30:07:06; and two copies with the State Archivist.)

(Note: One electronic and one paper copy is being maintained.)

(Note: Previous record series number was HEA-66)
DOH-10. BIRTH CERTIFICATES:

This database and microfilm series contains the original birth records as submitted electronically by hospitals. Information may include: state file number, name, date of birth, parents’ names, place of birth, time of birth, and statistical information used to generate a statistical report. Birth records submitted 1995 and after are transmitted electronically and are stored in Electronic Vital Record and Screening System (EVRSS). Birth records submitted prior to 1995 are on microfilm; but have been encoded into EVRSS. Birth records of “home births” and hospitals not using EVRSS are submitted as a paper document. This record series is maintained for census information, for statistical reporting, and for making certified copies for the public.

BIRTH RECORDS PRIOR TO 1995: Retain in office on microfilm permanently.

PAPER RECORDS: Transfer to the Yearly Series Records to be retained 1 year in office, then microfilmed and maintain film permanently.

(Note: Transfer paper to State Archives after film has been inspected and verified to meet quality standards.

(Note: Previous record series number was HEA-68)

DOH-14. **DEATH RECORDS:**

This database and microfilm series is arranged numerically by state file number and contains the original death records as submitted electronically or via paper by funeral directors, physicians, and coroners. Information may include: state file number, deceased’s name, date of birth, place of birth, date of death, place of death, and cause of death. Death records submitted after 2003 are divided into two parts: the Fact of Death and the Medical Certificate. Some of the Fact of Death and Medical Certificates are submitted electronically and stored in EVRSS. Some funeral directors, coroners, and physicians submit the Fact of Death and Medical Certificates on paper. Death records submitted prior to 2004 are on microfilm, but will be encoded into EVRSS. This record series is maintained for census information, for statistical reporting, and for making certified copies for the public.

**RETENTION:** DEATH RECORDS AFTER 2003: Retain database permanently.

PAPER RECORDS: Retain 1 year in office, then microfilm and maintain film permanently.

(Note: Transfer paper to State Archives after film has been inspected and verified to meet quality standards.)

DOH-17. **DIVORCE RECORDS:**

This paper, microfilm, and database series is arranged numerically by state file number and contains transcripts of divorce records as submitted by county Clerk of Courts on a monthly basis. Information may include: state file number, names (married and maiden), marriage date, place of marriage, divorce date, transcripts of divorce decree, and any other extraneous material related to the divorce. The records are encoded into EVRSS. This record series is maintained for census information, for statistical reporting, for research, and for making certified copies for the public.

**RETENTION:** PAPER: Retain 1 year in office, then microfilm and maintain film permanently.

DATABASE: Retain information permanently.

(Note: Transfer paper to State Archives after film has been inspected and verified to meet quality standards.)

This is an electronic database of birth, death, marriage, divorce, fetal death records, affidavits, disinternment permits, and vital records customer correspondence and transactions performed through Vitalchek. Information may include: birth, death, marriage, divorce, and fetal death, affidavits, and disinternment information. Customer correspondence may be received via mail, over the internet, by fax, over the telephone, and in person; and may include: customer name, telephone number, identification presented, service requested, charges incurred, and payments remitted. This series is used for statistical reporting, research, making certified copies upon request, accounting and customer tracking.

RETENTION: DATABASE: Retain information permanently.

PAPER CORRESPONDENCE: Retain 3 months after entered into EVRSS, then destroy.

(Note: All correspondence information is entered into EVRSS.)

(Note: Previous record series number was HEA-77.1)
DOH-20.  FETAL DEATH RECORDS:

This paper, microfilm, and database series is arranged numerically and contains the records of fetal deaths recorded in South Dakota. Information may include: state file number, name, mother’s name, date, location, and probable cause of the death. Fetal death records submitted 2005 and after are transmitted electronically into EVRSS. Fetal death records submitted prior to 2005 are on microfilm, but will be encoded into EVRSS. The records are used for statistical reporting, for research, and for making certified copies upon request.

RETENTION:  PAPER: Retain 1 year in office, then microfilm and maintain film in office permanently.

DATABASE: Retain information permanently.

(Note: Transfer paper to State Archives after film has been inspected and verified to meet quality standards.)

(Note: Previous record series number was HEA-78)

DOH-21.  FUNERAL DIRECTORS’ REPORTS:

This monthly series contains two alphabetically arranged computer reports. One is generated from monthly funeral director reports of all dead bodies or fetuses handled by the funeral directors and the other one is generated from EVRSS of all deaths. Information may include: county, name of the deceased, funeral home license number, undertaker’s name, and the date of death. This record series is maintained to insure that death certificates have been issued for all persons who die in South Dakota.

RETENTION: Retain current reports in office for 1 year. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-79)
DOH-22.  HOSPITAL AND NURSING HOME REPORTS:

The American Hospital Association Annual Survey of Hospitals and the Annual Nursing Facility and Assisted Living Center Survey is arranged chronologically and contains hospital and nursing home patient origin and facility specific statistics. Information may include: facility names and type of facility in which the patient resides. This record series is maintained for reference to list patient statistics and origins, and to list the types of facilities which are being utilized.

RETENTION:  PAPER RECORDS: Retain in office until data has been encoded and verified to be accurate and complete, then destroy.

DATABASE: Retain information permanently.

(Note: Previous record series number was HEA-80)

This database and microfilm series is arranged numerically by state file number and contains the original marriage records as submitted by County Register of Deeds. Information may include: state file number, bride’s name, groom’s name, marriage date, place of marriage, and other statistical items. Marriage records submitted after 2002 are transmitted electronically into EVRSS. Records prior to 2003 are on microfilm, but will be encoded into EVRSS. This record series is maintained for statistical reporting, for research, and for making certified copies for the public.

**RETENTION:** MARRIAGE RECORDS AFTER 2002: Retain database permanently.

MARRIAGE RECORDS PRIOR TO 2003: Retain permanently in office on microfilm.

PAPER: Retain 1 year in office, then microfilm and maintain film permanently.

(Note: Transfer paper to State Archives after film has been inspected and verified to meet quality standards.)

</table>

This form series contains reports received from the Department of Transportation (DOT), Fatal Accident Reporting System (FARS) program concerning traffic deaths. Vital Statistics personnel complete the reports once the official death record has been filed. Information which is added to the form includes: state file number, time and date of death, and cause of death. The original accident report form is returned to DOT after completion. This record series is maintained for statistical purposes and for computer encoding verification. The originals are returned to DOT after the information from this program has been added.

**RETENTION:** Retain 1 month in office, then destroy.

(Note: Previous record series number was HEA-86)

DOH-35. AIR SAMPLE DATA ENVELOPES:

This envelope series is arranged chronologically and contains identification information on the air sample filters enclosed in the envelope. Information may include: date, sample source or location, submitter’s name, and the air sample filter. This record series is maintained for documentation and for reference purposes.

RETENTION: Retain 1 year in office, then transfer to storage for 4 years. Destroy after 5 years.

(Note: Previous record series number was HEA-95)

DOH-36. AUTOCLAVE CHARTS:

This series is arranged chronologically and contains the circular disc chart produced on an autoclave. The cards illustrate temperatures of the autoclave for a specific time period. Printed on the card is the autoclave number and the date of use. This record series is maintained to record quality control standards in the sterilization of lab equipment.

RETENTION: Retain 5 years in office, then destroy.

**DOH-37. BLOOD ALCOHOL CONTENT (BAC) AND DRUG ANALYSIS WORKSHEETS:**

This series is arranged numerically by accession number and contains daily worksheets used when testing blood for alcohol and drug content. Information may include: sample accession number, subject’s name, date, submitting agency, and test results. This record series is maintained to document blood alcohol and drug levels and to report results to law enforcement officials for use during litigation.

**RETENTION:** Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years.

(Note: Previous record series number was HEA-97)

**DOH-38. BLOOD ALCOHOL REPORT SLIPS:**

This computer series contains blood alcohol test results. The information comes from the “Blood Alcohol Content (BAC) and Drug Analysis Worksheets”. Information may include: name, type of sample, date submitted, test results, and name of person who performed the test. This record series is maintained to document the results of blood alcohol tests and for use during litigation.

**RETENTION:** Retain 2 years on database, then transfer to back-up tape for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-98)
DOH-39. CONTAINER REQUESTS:

This series contains the request for containers used to send samples and specimens to the lab for testing purposes. The requests are maintained for addressing the mailing labels.

RETENTION: Retain 1 month in office, then destroy.

(Note: Previous record series number was HEA-101)

DOH-40. ECOLOGICAL BACTERIOLOGY LOGS:

This computer series is arranged chronologically and contains the results of bacteriological tests performed on water samples. Information may include: sample number, field location, submitter’s name and address, test name, date tested, and test results. This information is maintained to document quality control measures taken during testing and to formulate a weekly, monthly, and yearly report to highlight laboratory activities.

RETENTION: Retain 2 years on database, then transfer to back-up tape for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-102)
DOH-41.  EQUIPMENT FILES:

This series is arranged alphabetically and contains information on all equipment owned by the lab. Information may include, but is not limited to: equipment identification, purchase data, vendor name, original purchase price, contract copy, operation manuals, vendor sales literature, warranty information, suggested maintenance schedule, maintenance agreements (if any), and maintenance records. This record series is maintained as a quick reference concerning the features of each piece of equipment, for accounting purposes, and to determine when it is more economical to purchase new equipment rather than repair old equipment.

RETENTION: Retain in office for life of equipment/instrument. Destroy when equipment/instrument is surplused or replaced.

(Note: Previous record series number was HEA-103)

DOH-42.  ETHYL ALCOHOL LOG:

This log is arranged chronologically and documents the use of ethyl alcohol in the lab. Information may include: beginning inventory quantity, date, amount used, name, and ending inventory balance. This information is maintained to comply with federal regulations concerned with monitoring and controlling the use of ethyl alcohol.

RETENTION: Retain full book 2 years in office, the transfer to storage for 2 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-104)
**DOH-43. FOOD RELATED ILLNESSES OUTBREAK FILE:**

This series is arranged alphabetically and contains information gathered when testing food samples to determine causes for food related illness outbreaks. Information may include: name of individual submitting sample, date, where the food was purchased, tests administered, test results, and copies of notices sent to the health inspectors for further action. This information is maintained to document that testing has occurred and if necessary to initiate follow-up inspections of the premises.

**RETENTION:** Retain 5 years in office, then destroy.

(Note: Previous record series number was HEA-105)

**DOH-44. LABORATORY TEST RESULTS (NEGATIVE):**

This computer series is arranged alphabetically by test name and contains the negative results for all tests performed in the laboratory. Information may include, but is not limited to: lab number, name of patient, doctor’s name, date, remarks, and results. Types of test may include: rabies, rubella, other serology, general bacterial, and tuberculosis tests. This record series is maintained for reference and statistical reporting purposes.

**RETENTION:** Retain database for 2 years, then transfer to back-up tape for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-108)
DOH-45. LABORATORY TEST RESULTS (POSITIVE):

This computer series is arranged alphabetically by test name and contains the positive results for all tests performed in the laboratory. Information may include, but is not limited to: lab number, name of patient, doctor’s name, date, remarks, and results. Types of test may include: rabies, rubella, other serology, general bacterial, and tuberculosis tests. This record series is maintained for reference and statistical reporting purposes.

RETENTION: Retain database 3 years, then transfer to back-up tape for 3 years. Destroy after 6 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-109)

DOH-46. MEDICAL RECORDS SYSTEM:

This computer series is arranged alphabetically by name of person or facility and contains an itemized list of all test results performed for each person or facility. The system is used for medical, water, and blood tests. Information may include: name, date of birth (where applicable), type of test, date sample was submitted, and test results. This record series is maintained as a quick reference to determine which tests have been run for the respective person or facility.

RETENTION: Retain 1 year on the computer system. Printout on Computer Output Microfiche (COM) and maintain COM in office for 100 years. Destroy after 100 years.

(Note: Previous record series number was HEA-110)
DOH-47. PACKING SLIPS:

This series is arranged chronologically and contains packing slips received for supplies used throughout the laboratory. Information may include: date sent, name and quantity of items sent, lot number, authorized signature, date received, and shipping information. The slips are retained to answer questions concerning lot numbers of cultures received.

RETENTION: Retain 1 year in office, then destroy.

(Note: Previous record series number was HEA-111)

DOH-48. QUALITY ASSURANCE FILES:

This series consists of the laboratory quality assurance plan and the internal audit system used by the microbiologists/chemists to monitor the quality of test results. Information may include, but is not limited to: the quality parameters identified in the laboratory quality assurance plan. This record series is maintained to identify, correct, and improve laboratory performance and to meet the required quality assurance standard.

RETENTION: MEDICAL SECTION: Retain in office for 2 years, then destroy.

ENVIRONMENTAL AND FORENSIC SECTION: Retain in office for 2 years, then transfer to storage for 3 years. Destroy after 5 years.

(Note: Previous record series number was HEA-113)
DOH-49. QUALITY CONTROL CHARTS:

These charts are arranged alphabetically by laboratory name and contain random quality control checks of instrument performance and glassware preparation. Information may include, but is not limited to: date, test or measure, quality standard, instrument identification, and glassware sterilization record. This record series is maintained for workload accounting and annual statistical reporting purposes.

RETENTION: MEDICAL SECTION: Retain 2 years in office, then destroy.

ENVIRONMENTAL AND FORENSICS SECTION: Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years.

(Note: Previous record series number was HEA-114)

DOH-50. QUALITY CONTROL DATA SHEETS:

This series consists of quality control data sheets required when testing is performed. Information may include, but is not limited to: test/media, agent name, date performed, lot number, initials of technician, date of expiration, and individual control features for the test. Some data sheets may include: bacteriology media, serology, viral culture, and viral serology. This record series is maintained to document that proper testing and lab procedures were followed.

RETENTION: MEDICAL SECTION: Retain 2 years in office, then destroy.

ENVIRONMENTAL AND FORENSICS SECTION: Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years.

(Note: Previous record series number was HEA-115)

**DOH-55. SAMPLES AND CONTAINERS REQUEST LOG:**

This computer log series is arranged chronologically and contains an itemized list of all samples and containers sent to laboratories throughout the state. Information may include: type and quantity sent, date, and name and address of requesting party. This record series is maintained for inventory control.

**RETENTION:**

- **MEDICAL SECTION:** Retain logs on database for 2 years, then delete.
- **ENVIRONMENTAL AND FORENSIC SECTION:** Retain logs on database for 1 year, then delete.

(Note: Previous record series number was HEA-120)

**DOH-56. SPECIMEN KIT LOGS:**

This computer series is arranged chronologically and documents the number of specimen kits sent out and the date they were returned for testing. Information may include: type of specimen kit requested, date sent, submitter’s name, and date received. The log is used to control the procurement, stocking, and mailing of specimen kits.

**RETENTION:** Retain data 1 year, then delete.

(Note: Previous record series number was HEA-121)
**DOH-57. SPECIMEN LOGS, (VIRAL AND BACTERIAL):**

This series is arranged chronologically and documents the receipt of all viral and bacterial specimens, which are sent for testing to the National Center for Disease Control in Atlanta, Georgia. Information may include: type of specimen, submitter’s identification, patient’s name, date received, date sent, date test results are received, and test results. This record series is maintained for reference to answer questions regarding specimens which have been sent away for testing.

**RETENTION:** Retain full sheets 2 years in office, then destroy.

(Note: Previous record series number was HEA-122)

**DOH-58. SUBMITTER FORMS:**

This series is arranged numerically by laboratory section and consists of the laboratory accession forms prepared by the submitter. Information may include: the test(s) requested, patient/source identifier, patient/source address, patient birth date, specimen source, collection date(s), patient sex, patient race, and submitter’s name and address. These forms are maintained to provide verification of specimen receipt and to meet certification requirements.

**RETENTION:** MEDICAL SECTION FORMS: Retain 2 years in office, then destroy.

ENVIRONMENTAL AND FORENSICS SECTION FORMS: Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years.

### DOH-59. VENDOR LOGS AND CARD FILES:

This three-ring binder and rolodex card file series contains vendor information. Information may include: name, address, telephone number, contact person, vendor identification number, and major items purchased from the vendor. This record series is maintained for quick reference to determine the names and address of each vendor.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-124)

### DOH-60. WASTEWATER FILES:

This computer series contains wastewater testing information. Information may include: name of town, sewer plant location, date, service or test provided, and fees charged. This record series is maintained for billing communities for services provided and for audit purposes.

**RETENTION:** Retain on database for 2 years, then transfer to back-up tape for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

Information may include: methodology of fund description, salary and wage funding source breakdowns, and other background information used to support cost allocations. This record series is used to prepare budget requests, grant applications, and other administrative plans.

**RETENTION:** Retain 2 years in office, then transfer to storage for 2 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-36)

| DOH-66. ADMINISTRATIVE REFERENCE FILES: | | 07-039 |

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Monthly Progress Reports, Program Files, and Published Document Files are subject to archival screening prior to disposal.)

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)
DOH-67. **BAD DEBTS:**

This series is arranged alphabetically and contains records of past due debts owed to the Health Department. Bad debt information may include: a copy of the Exhibit D from field offices incurring the debt, a copy of transfer record used to forward information to the Office of Risk Management, and bad checks. A copy of this transfer record is made for the Finance Office records until debt is satisfied.

**RETENTION:** Retain in office until notification that debt is satisfied, then destroy.

(Note: Previous record series number was HEA-38)

DOH-68. **BANK STATEMENTS:**

This series is arranged chronologically and contains bank account records of funds withheld from State Treasury deposit to make refunds. Information may include: statement date, canceled checks, deposit record, and beginning and ending bank balances. This record series is used to reconcile bank statements with amounts withheld from the State Treasury deposits and for audit purposes.

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

This series is arranged chronologically and contains fee accounting receipts generated from the issuance of vital records and from laboratory fees. Information may include: microcomputer generated receipts containing the date received, receipt number, name of person money was received from, receiver, amount, fund credited, and working papers used to balance the accounts. This record series is used for audit purposes to insure that all funds have been correctly credited. The information is summarized in the Fee Accounting Ledgers.

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-48)
DOH-71. **HIPAA DOCUMENTATION:**

This paper and database series is arranged alphabetically by name and contains HIPAA documentation that will be kept in one master file. Information may include: HIPAA request forms, HIPAA response forms, HIPAA complaint forms, HIPAA authorization forms and compliance review forms, and other HIPAA documentation. This record series is required to be maintained six years by the HIPAA regulation for purpose of a potential compliance review by the United States Secretary of Health and Human Services.

**RETENTION:** Retain 6 years, then destroy.

(Note: Previous record series number was HEA-333)

---

DOH-72. **TRANSMITTAL OF FEES PRINTOUTS:**

This computer printout series is arranged chronologically and contains the daily log of money received by the department and is used to reconcile the “Fee Accounting Ledger.”

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-60)

### DOH-80. CONVERTOR CLUSTER INVESTIGATION WORKSHEET (HS430):

This series is arranged chronologically by calendar year and contains investigations of tuberculosis skin test convertor clusters. Information may include: the Convertor Cluster Investigation Worksheet (HS430), correspondence/E-mails, and investigation notes. This record series is maintained to document the report of convertor clusters so surveillance activities can be conducted to look for additional cases.

**RETENTION:** Retain in Central Office 3 years, then destroy by shredding.

(Note: Previous record series number was HEA-318)

### DOH-81. EPIDEMIOLOGY (EPI) ANIMAL RABIES RECORDS:

This series contains confidential reports of investigations into the human and/or animal exposures to animals with or suspected to have rabies. Information may include: animal type, summary of incident, recommendations made to the medical and public officials, and consultant’s comments. This record series is maintained for reference and to document recommendations made by Health Department personnel.

**RETENTION:** Retain 3 years in office, then microfilm and maintain film 7 years in office. Destroy film after 10 years.

(Note: Previous record series number was HEA-183)
### DOH-82. EPIDEMIOLOGY (EPI) CHRONIC HEPATITIS REGISTRY:

This electronic database series is arranged chronologically and contains information about individuals who are chronically infected with viral hepatitis B and/or C. Information may include: personal identifiers, demographic information, laboratory test results, risk factors and documentation of intervention activities throughout the patient’s lifetime. The information contained in this registry is confidential.

**RETENTION:** Retain in database 75 years, then delete.

(Note: Previous record series number was HEA-342)

### DOH-83. EPIDEMIOLOGY (EPI) INVESTIGATION RECORDS (GERF’S):

This paper and database series is arranged chronologically and these confidential records contain the results and documentation of individual disease investigation. Information may include: summary of the investigation, recommendations made to the patient, clinical, and/or other agencies involved in the disease investigation. This record series is used for an investigation of infectious diseases and is maintained for legal and medical purposes.

**RETENTION:** PAPER: Retain 3 years in office, then microfilm and maintain film for 7 years. Destroy after 10 years.

DATABASE: Retain 10 years, then delete.

<tbody>
<tr>
<td>DOH-87.</td>
<td>HIV/AIDS CASE REGISTRY:</td>
</tr>
</tbody>
</table>

This paper and database series is arranged alphabetically and contains the HIV/AIDS confidential case report, interview record, death certificate, and anecdotal notes for each person reported as a South Dakota HIV/AIDS case. The case report and interview records as well as anecdotal notes are submitted from the field offices. The death certificate is submitted by the Office of Vital Records if the cause of death is HIV/AIDS related. Paper files may include: information regarding the case report, contacts, progress notes, and other information relating to the case. Database may include: reporting information reportable to the CDC; demographics; and laboratory, clinical status, and epidemiological data, which may be updated as new information is reported. Select information from the HIV/AIDS Confidential Case Report is encoded into a database used for analysis and to transfer data electronically to the Centers for Disease Control and Prevention. Information from the interview records is encoded into a STD database to monitor the investigation including contacts.

**RETENTION:** DATABASE: Retain 25 years, then delete provided the individual is known to be deceased.

PAPER: Retain 25 years, then destroy provided the individual is known to be deceased.

(Note: Previous record series number was HEA-185)
DOH-88. **HIV COUNSELING & TESTING SUMMARY REPORTS FOR SOUTH DAKOTA:**

This series is arranged chronologically and contains quarterly summary reports of the HIV testing performed at the field offices and HIV testing summary information from the state lab in Tables 1-5. HIV active surveillance activities are reported in Table 6 of this report. Tables 1-5 are faxed to the Centers for Disease Control on a quarterly basis. Table 6 is used in the HIV Surveillance grant’s progress reports.

**RETENTION:** Retain for 5 years, then destroy.

(Note: Previous record series number was HEA-320)

DOH-89. **IMMUNIZATION CERTIFICATES:**

This series is arranged alphabetically and contains the immunization certificates received on each child entering school in South Dakota. Information on the immunization certificate includes: child’s name, vaccination dates, and school. The certificate is a legal document verifying appropriate immunization has been received by each child entering school in South Dakota.

**RETENTION:** Retain 1 year in office, then microfilm and maintain film for 39 years. Destroy film after 40 years.

(Note: Previous record series number was HEA-199)
DOH-90. **INTERSTATE REPORTING OF REPORTABLE DISEASES:**

This series is arranged chronologically and contains reports of patients with reportable disease conditions who reside in other states. Information may include: Interstate Reciprocal Notification of Disease Form, Inter-jurisdictional Tuberculosis Notification, laboratory reports, disease investigation report forms, copy of Tuberculosis Reactor Card (HS402), report from electronic tuberculosis registry, and copies of forms from the Tuberculosis Case Chart. This information is maintained to document the referral of reportable disease conditions for patients who reside in other States.

**RETENTION:** Retain 2 years in central office, then destroy by shredding.

(Note: Previous record series number was HEA-322)

DOH-91. **LATENT TUBERCULOSIS INFECTION REPORT FORM (HS400):**

This series is arranged alphabetically by calendar year and contains the report of patients with latent tuberculosis infection. Information may include: the “Latent Tuberculosis Infection Report Form” (HS400). This record series is used to report patients with latent tuberculosis infection.

**RETENTION:** Retain 2 years in Central Office, then destroy by shredding.

(Note: Previous record series number was HEA-323)
### DOH-92. MEDICATION DISTRIBUTION FORM:

This series is arranged chronologically and contains medication distribution information. Information may include: Medications Issued Form, date provided, provider name, medication name, dosage, number of tablets issued, lot number, and expiration date. This record series is maintained to document medication distribution for sexually transmitted diseases and tuberculosis.

**RETENTION:** Retain 3 years in central office, then destroy by shredding.

(Note: Previous record series number was HEA-324)

### DOH-93. OFFICE OF DISEASE PREVENTION RELEASE OF INFORMATION:

This series is arranged chronologically by calendar year and contains the signed consent of patients. Information may include: Office of Disease Prevention Release of Information Form (HS449), TB Control Program Release of Information Form (HS450), Fax Cover Sheet (HS447), and Fax Cover Sheet (HS448). This record series is used to document the signed consent of the patient to release specified information to themselves or others. All forms completed in the Central Office will be retained in the Central Office.

**RETENTION:** Retain 10 years in Central Office, then destroy by shredding provided all litigation, claims and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-325)
DOH-94. **RYAN WHITE CARE PROGRAM ACTIVE CLIENTS:**

This series is arranged alphabetically and contains files for active clients of the Title II Ryan White Care Program. Information may include: each client’s application for the program, correspondence with the client, and copies of bills paid for the client. This record series is maintained for documentation purposes.

**RETENTION:** Retain active in office. Destroy 6 months after inactive, provided all bills have been paid.

(Note: Previous record series number was HEA-326)

DOH-95. **SOUTH DAKOTA DEPARTMENT OF HEALTH EMPLOYEE TB SYMPTOM EDUCATION FORM (HS351):**

This series is maintained in the Department of Health personnel file and documents the annual education of tuberculin infected employees. Information may include: South Dakota Department of Health Employee TB Symptom Education Form (HS351), medical follow-up, treatment information, and medical evaluations. This record series is maintained to document the employee was educated and screened for tuberculosis annually.

**RETENTION:** Retain in personnel file until the end of employment, then destroy.

DOH-97. SUSPECT TUBERCULOSIS CASE FILE: 07-039

This series is arranged alphabetically by calendar year and contains a report of each suspect tuberculosis case. Information may include: Tuberculosis Case Report Form (HS420), Monthly TB Case Progress Report (HS426), treatment information, laboratory reports, chest X-ray reports, investigation notes, correspondence/E-mail, and refugee paperwork. This record series is used to document treatment and services/interventions provided as part of the investigation and management of the patient.

RETENTION: NEGATIVE RECORDS: Retain 5 years in Central Office, then destroy by shredding.
POSITIVE RECORDS: Transfer to the “Tuberculosis Case Chart.”
(Note: Previous record series number was HEA-220)

DOH-98. SYPHILIS REGISTRY: 07-039

This confidential card series is arranged alphabetically and contains information on all individuals who have been treated for syphilis. This file contains records prior to 1985. Once an individual has had syphilis, blood tests will always be positive. Information may include: name, address, date, disease confirmation, Early Syphilis Reports, laboratory results, doctor's name, and doctor's comments. This record series is maintained to monitor confirmed syphilis cases and determine adequate treatment has been prescribed for syphilis patients in South Dakota.

RETENTION: Retain 75 years in office, then destroy.

(NOTE: Consider microfilming when volume warrants.)

**RETENTION:** Retain chart in Central Office 5 years, then combine with field office chart to create master chart with no duplication of forms. Scan/microfilm master chart and maintain film 45 years. Destroy after 50 years.

**DATABASE:** Retain 50 years, then delete.

(Note: Previous record series number was HEA-223)
DOH-105. TUBERCULOSIS REACTOR CARD (HS402):

This paper and database series is arranged alphabetically and contains latent tuberculosis infection information on the patient. Information may include: tuberculin skin test, chest x-ray, treatment, medication side effects, progress notes, Tuberculosis Reactor Card (HS402), Extra Progress Notes (HS403), physician orders, and prescriptions. This record series is maintained to document treatment and medical management of the patient. A summary of this record is also maintained in an electronic database.

RETENTION: Retain original in field office 1 year past closure, then transfer to Central Office for inclusion in TB registry. Retain 49 years in TB registry, then destroy by shredding.

DATABASE: Retain 50 years, then delete.

(Note: Previous record series number was HEA-329)

DOH-106. VACCINE PROVIDER CONTRACT:

This series is arranged numerically by provider identification number and contains contracts completed by vaccine providers. Information may include: provider certification form, provider profile form, provider monthly reports and audits, and other related information pertaining to each specific provider. This record series is maintained for possible litigation purposes and must be available for the National Immunization Program (NIP) upon written request.

RETENTION: Retain 3 years in office, then destroy.

(Note: NIP requires provider agreements and profiles to be kept for a minimum of 3 years.)

(Note: Previous record series number was HEA-229)

This paper or electronic series is arranged chronologically and contains information received from retailers, local agencies or persons with complaints against the WIC Program regarding WIC participation. Information may include: correspondence, letter or form complaints, investigation comments, misuse information, recommendations, and actions taken. This record series is maintained for reference purposes and to initiate corrective actions as required in each case.

RETENTION: Retain 4 years in office, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-235)

| DOH-108.          | ADMINISTRATIVE REFERENCE FILES: | 07-039                  |

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

RETENTION: Retain current in office. Destroy superseded or obsolete.

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)
DOH-109. CONTRACTS, WIC RETAILERS:

This series is arranged numerically and contains the contracts between the program and retailers that participate in the WIC program. Information may include: consultant name, contact person, identification number, telephone number, address, authorized signatures, terms and conditions of the contract, and effective dates. This record series is maintained for reference and audit purposes.

RETENTION: Retain original WIC Retailer Contracting Report and all signed Agreements and Application forms current in office. Microfilm once terminated and maintain for 7 years. Destroy 7 years after terminated.

Retain Monitor Records and Correspondence 2 years in office, then destroy.

(Note: Purge monitor records and correspondence annually by December of each year.)

(Note: Previous record series number was HEA-236)
DOH-110. DUAL PARTICIPATION REPORTS:

This electronic series is arranged chronologically and contains investigation data concerning possible dual WIC program participation. Information may include, but is not limited to: correspondence; quarterly reports from computer system and ITO’s (Indian Tribal Offices); investigation comments; final recommendations; and corrective actions taken. This record series is used for checking dual participation between Local WIC Agencies and between other State WIC Programs.

RETENTION: Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-237)

DOH-111. FAMILY PLANNING ANNUAL REPORT:

This annual report series is arranged chronologically and contains combined totals of demographic data submitted for family planning services provided. The family planning program funding is contingent upon these reports. Information includes patient information regarding age, sex, race, ethnicity, income, and contraceptive method. This record series is maintained for audit and grant reporting purposes.

RETENTION: Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claim, and audit findings involving the records have been resolved and final action has been taken.

(Note: Subject to archival screening prior to disposal.)

(Note: Previous record series number was HEA-239)
DOH-113. LOCAL WIC AGENCY FILES:

This paper or electronic series is arranged alphabetically by county and provides a listing of WIC Program activities in each county. Information may include: civil rights training; mailing checks forms; lost or stolen checks follow-up; management evaluations; monthly participation and unmatched reports; nutrition education and marketing plans; possible over issuance reports; program misuse/general complaints; receipt of WIC checks; non-contract formula participant reports; and any other related documentation. This record series is maintained for reference and statistical reporting purposes.

RETENTION: Retain 1 year in office, then transfer to storage for 3 years or retain electronically for 4 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-243)
DOH-114.  LOST OR STOLEN CHECK FOLLOW-UP REPORTS:

This report contains information generated from the computer system status report of lost or stolen food checks that have been cashed and must be verified. The report includes: Check number, Lost/Stolen, Redeemed appropriately, and comment section. This record series is maintained for reconciliation of checks. It is sent to local agencies to verify the check number matches the family/client number to which it was originally assigned; the signature matches the Check: Checks match those reported lost or stolen on local agency report; and involves contact with participant if the check was reported lost or stolen originally, then cashed.

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claim, and audit findings involving the records have been resolved and final action has been taken.

This paper or electronic series is arranged chronologically and contains information completed by the WIC Local Agency listing county contract clerical expenditures incurred during the month and request for reimbursement from the State Office. Information may include: county name, contract amount, contract number, expenditures, total amount, and authorized signatures. This record series is maintained for audit purposes.

**RETENTION:** Retain 4 years, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-246)

| DOH-117. | NBS LABORATORY REPORTS, NORMAL: | 07-039 |

This series is arranged by date of birth, then alphabetically and contains normal NBS laboratory reports. Newborn screening tests are performed to detect conditions that threaten the life and long-term health of infants. Newborn screening tests are required under SDCL 34-24-16 thru 25 and ARSD 44:04:09:08.

**RETENTION:** Retain paper records of metabolic screening test results (normal results) 1 year in office, then destroy.
### DOH-118. NEWBORN SCREENING PROGRAM, FOLLOW-UP:

This series is arranged by date of birth, then alphabetically and contains follow-up documentation for abnormal NBS screening test results; names of infants that are never tested (includes refusals); unacceptable specimens; specimens that are affected by transfusion; and specimens collected less than 24 hours of age that are reported to the program. Information may include, but is not limited to: laboratory notification report of abnormal, laboratory reports, follow-up documentation, and correspondence. Newborn screening tests are required under SDCL 34-24-16 thru 25 and ARSD 44:04:09:08.

**RETENTION:** PAPER: Retain 5 years in office, then scan and destroy paper upon verification of scanned images.

ELECTRONIC IMAGE: Convert to microfilm as volume warrants. The microfilm and images will be maintained until the age of 28, then destroy.

(Note: The electronic images will be maintained by the Central Office.)
DOH-119. NEWBORN SCREENING PROGRAM REPORTS:

This series is arranged by type, then chronologically and contains the newborn screening program reports. Follow-up reports may include, but are not limited to: “Never Tested”, “Abnormal”, “Presumptive Positive”, “Lab Alert”, “Diagnosed Disorders”, “NBS Stats”, “MetCaseStatus”, and “Screening Stats”. This record series is used for program monitoring, follow-up investigating, and reporting program statistics. Newborn screening tests are required under SDCL 34-24-16 thru 25 and ARSD 44:04:09:08. Newborn Screening tests are performed to detect conditions that threaten the life and long-term health of infants.

RETENTION: Retain reports 1 year in office, then destroy.

This microfilm and electronic series is arranged alphabetically by last name and year of birth and contains all related documentation concerning services provided for Children with Special Health Care Needs. Information may include: patient name, birth date, address, name of parents or guardians, case number, child’s special health need(s), diagnosis, clinic records, physician(s), insurance policy name and number, date of services, date of payment, and amount paid. This series provides documentation of all services provided to clients and is used in billing all costs.

**RETENTION:** Retain in the Central Office 10 years past the age of majority or 10 years past the last date of service, whichever longer, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Document imaging system exists.)

(Note: Microfilm and scan as volume warrants.)

(Note: Previous record series number was HEA-247)
DOH-121. **SITE ASSESSMENTS/SELF ASSESSMENTS/CIVIL RIGHTS TRAINING:**

This series contains copies of program site assessments reviews, self assessments, and civil rights reviews. Information may include: date of review, names of program reviewers, site name, review findings, recommendations to improve deficiencies, and response. The review is conducted to ensure quality service, and to assure compliance with federal regulations and program policy.

**RETENTION:** Retain 4 years, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-248-1)

DOH-122. **SPECIAL PROCEDURES APPROVAL LOGS-FP:**

This series is arranged chronologically and contains the list of patients who receive approval for family planning assistance for special procedures. Procedures may include, but are not limited to: tubal ligations, vasectomies, IUD insertions, and IUD removals. The log is used for budgetary accounting purposes.

**RETENTION:** Retain 2 years in office, then destroy.

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-241)
DOH-125. AGES AND STAGES QUESTIONNAIRES:

This series is arranged alphabetically and contains age-appropriate questionnaires that are completed by the parent(s) and age-appropriate scoring and data summary sheets completed by the nurse. Information may include: child’s name, DOB, demographic information, and developmental screening information. This record series is used to document the child’s development and is maintained to record the development progress until such time as the child enters school.

RETENTION: Retain in office until the child reaches the age of 7, then destroy.

(Note: Previous record series number was HEA-273)

DOH-126. ADMINISTRATIVE REFERENCE FILES:

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

RETENTION: Retain current in office. Destroy superseded or obsolete.

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)
DOH-127. **AUTHORIZATION FOR SERVICES (HS348):**

This series is arranged alphabetically and by calendar year and contains the signed consent form from the patient for testing or services. Information may include: Authorization for Services (HS348), tuberculin skin testing information, PPD lot number, and PPD manufacturer. This record series is maintained to document the consent to receive skin testing and other services. Positive skin testing results for patient diagnosed with latent tuberculosis infection will have their records retained in the “Latent Tuberculosis Patient Record”. Positive skin test results for patient diagnosed with tuberculosis will have their records retained in the “Tuberculosis Case Chart”.

**RETENTION:** Retain negative results 10 years in field office, then destroy by shredding.

DOH-128. **BABY CARE CLIENT RECORDS:**

This computerized series is arranged alphabetically by client’s name, then by a computer generated identification number and may contain the Prenatal Assessment Form, Prenatal Visit Records, Mother’s Health & Social Inventory (Routine or Extended), Pregnancy Outcome Form, Family Visit Record, Infant Assessment Form, Referral/Resource Form, and Client Exit Form. Information may include: medical assessments and record of care provided. This record series is maintained as a record of medical services provided to individuals.

**RETENTION:** Retain 10 years after last date of services provided, then delete.

(NOTE: This record series was formerly called Prenatal Risk Assessment Form.)

(Note: Previous record series number was HEA-292)
DOH-129. **BAD DEBT RECORDS:**

This series is arranged alphabetically and contains bad debt information including names of clients with accounts having no payment activity in the last 120 days. Information may include: debtor’s name and address, social security number, debt owed, date of original obligation, original amount due, and dates, types, and numbers of contacts (billings). The information is completed on an Exhibit D and is forwarded to the Finance Office in Pierre.

**RETENTION:** Retain records of outstanding debt in office. Once the debt has been satisfied or permission is given by Bureau of Finance and Management to write the debt off, then retain with financial records for 4 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-266)

DOH-137. **CHECK REGISTER:**

This register provides a listing of all WIC checks issued by Local Agency per participant. Information may include: family identification number, check number, and name. This register is used by Local Agency to determine proof of check issuance that all participants must sign prior to receiving their checks.

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-301)

This paper or electronic series is arranged chronologically by date and contains check numbers that need to be changed on the computer system in Pierre. Information may include: Local Agency, site, voided and damaged check numbers, and date.

**RETENTION:** Retain 1 year in office, then destroy.

(Note: Previous record series number was HEA-276)

| DOH-130.          | CLIENT SATISFACTION SURVEY SUMMARIES-FP:             | 07-039                  |

This series is arranged chronologically and contains the summary results of client satisfaction surveys completed by twenty-five percent of family planning clients. Information may include: client’s view of services provided, staff knowledge and interaction, space, and confidentiality. This record series meets a quality assurance activity required by federal funding. The tabulated results are reviewed by field staff to identify corrective actions and by program staff during a program assessment visit.

**RETENTION:** Retain 3 years in office or until reviewed during program site assessment, then destroy.

(Note: Previous record series number was HEA-268-1)

DOH-134. **DAILY STAFF ACTIVITY WORKSHEET:**

This series is arranged alphabetically by nurses’ name and contains the daily staff activity worksheets for community health and public health alliance nurses. Information may include: staff name, staff id, office identification number, date, client name, function codes, program codes, time, client identification, client age, and funding codes. This record series is used for reference on time studies.

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-272)

DOH-136. **FINANCIAL INFORMATION AND LEDGER CARDS:**

This electronic series is arranged alphabetically by client’s name and contains services provided documenting charges, adjustments made, and cash received for services provided. It also includes a record of transmittals to the Remittance Center. Information may include: date, client number, fees charged, paid on account, donations, adjustments, balance due, patient financial information, and payments transferred to the Remittance Center. This records series is maintained to reconcile cash receipt transmittals, to provide an accounting of cash payments transferred to remittance center, and for audit purposes.

**RETENTION:** Retain 4 years after the last date the client was seen or the date of the transmittal, then delete provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-275)
### DOH-140. IMMUNIZATION CLINIC AUDIT:

This series may contain paper copies or electronic forms used to conduct the annual immunization clinic audit. Information may include: date of audit, region and county where audit was conducted, signatures of reviewers, and results of audit. The original is kept at the Central Office in Pierre.

**RETENTION:** Retain current audit cover letter in office. Destroy superseded or obsolete.

(Note: Electronic documents are stored on the “N” or “X” drive.)

(Note: Clinic Audits results are maintained in the CoCASA database on the Citrix server.)

(Note: Previous record series number was HEA-277)

### DOH-141. IMMUNIZATION CONSENT FORMS:

This series is arranged alphabetically by patient’s name and contains the forms signed by clients or their guardians, which authorizes nurses covered under SDDOH Standing Orders and Public Health Alliance nurses to administer vaccine. Information may include: type of vaccine; date; client’s name, address, age, and birth date; manufacturer lot number, site of injection, and client’s or guardian’s signature. This record series does not include Vaccination Administration Records. This record series is maintained pursuant to ARSD 44:04:09:08.

**RETENTION:** Retain 1 year in office, then microfilm. Maintain film 2 years past the age of majority or 10 years past the last date of service, whichever longer, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-279)

This book contains copies of receipts documenting cash received. Each receipt shows: payor, amount, date, purpose, and signature of issuer. This record series provides an account for cash payments transferred to Community Health Services and are maintained for audit purposes.

**RETENTION:** Retain full books 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Electronic receipts will be archived electronically. Paper copies of electronic receipts must not be printed and maintained.)

(Note: Previous record series number was HEA-293)

| DOH-152. REFUGEE PAPERWORK: | 07-039 |

This series is arranged alphabetically by calendar year and contains medical information from the overseas evaluation of refugees who have resettled in South Dakota. Information may include: Medical Examination for Immigrant or Refugee Applicant, Class A Notification and Waiver, Class B Notification, and Notice of Arrival of Alien with TB. This record series is maintained to document the medical evaluation of immigrants. Refugees diagnosed with latent tuberculosis infection will have their records retained in the “Latent Tuberculosis Patient Record”. Refugees diagnosed with tuberculosis will have their records retained in the “Tuberculosis Case Chart”.

**RETENTION:** Retain results 1 year in the field office, then destroy by shredding.
### DOH-153. SCHOOL CARDS:

This 5” X 7” card series is arranged alphabetically by school name, then by student name. The record is used to document the health status of the students as indicated by the school health assessment. Information may include: date of inspection; student’s grade; results of screening test (vision and hearing); results from examination of teeth, throat, heart, lungs, glands, skin, scoliosis screening, and allergies; and any referrals made. This record series is used to document the health status of students in public schools.

**RETENTION:** Retain in office 10 years past the age of majority or the last date of service, whichever longer, then destroy.

(Note: Upon graduation from high school, the card may be given to the student if so requested. Card may be given to the school if a contract to do so has been written. Consider data processing or microfilming for more efficient storage and handling.)

(Note: Previous record series number was HEA-297)

### DOH-154. SIOUX FALLS TB CLINIC APPOINTMENT LOG (HS435):

This series is arranged chronologically by calendar year and contains a list of patients scheduled for an appointment at the tuberculosis clinic. Information may include: Sioux Falls TB Clinic Appointment Log (HS435) and scheduling notes. This record series is maintained to ensure appropriate scheduling of patients for clinic time.

**RETENTION:** Retain in field office 1 year, then destroy by shredding.
## SOUTH DAKOTA DEPARTMENT OF HEALTH EMPLOYEE
### TB SYMPTOM EDUCATION FORM (HS351) – FIELD OFFICE:

This series is maintained in the Department of Health personnel file and documents the annual education of tuberculin infected employees. Information may include: South Dakota Department of Health Employee TB Symptoms Education Form (HS351), medical follow-up, treatment information, and medical evaluations. This information is maintained to document the employee was educated and screened for tuberculosis symptoms annually.

**RETENTION:** Retain in personnel file until the end of employment, then destroy.
DOH-156. **SUSPECT TUBERCULOSIS CASE FILES-FIELD OFFICES:**

This series is arranged alphabetically and contains a report of each suspect tuberculosis case. Information may include: Tuberculosis Case Report Form (HS420), TB Case Summary (HS421), Patient TB Treatment Summary (HS422), Tuberculosis Case Side Effects Assessment Form (HS423), TB Disease-Patient Education and Consent Form (HS424), TB Case Progress Notes (HS425), Monthly TB Case Progress Report (HS426), Agreement for Administration for Department of Health TB Medication in Facilities for Treatment of Tuberculosis Disease (HS427), TB Contact Investigation Worksheet (HS428), written prescriptions, physician orders, laboratory reports, chest X-ray reports, investigation notes, correspondence/E-mail, Report of Services (HS346), Authorization for Services (HS348), Report of CHN Services (HS168), and refugee paperwork. This record series is used to document treatment and services/interventions provided as part of the investigation and management of the patient. Positive case records are maintained in “Tuberculosis Case Chart”.

**RETENTION:** Retain negative records 5 years in field office, then microfilm/scan and maintain film for 5 years. Destroy film after 10 years provided all litigation, claims and audit findings involving the records have been resolved and final action has been taken.

DOH-157. **TB CLIENT CHANGE OF STATUS FORM (HS437)-FIELD OFFICE:**

This series is arranged alphabetically by calendar year and contains a report of changes to patients on treatment. Information may include: TB Client Change of Status Form (HS437), therapy changes, dosage changes, moving in-state, moving out-of-state, and restarting therapy. This record series is maintained to document therapy changes and update the information in the database.

**RETENTION:** Transfer originals to Central Office to be retained for 2 years, then destroy by shredding.

This series is arranged chronologically by calendar year and documents the investigation of tuberculosis clusters. Information may include: TB Cluster Investigation For Record Abstraction and Patient Interview (HS445), investigation notes, and correspondence/E-mail. This record series is maintained to document the investigation of a tuberculosis cluster.

**RETENTION:** Transfer originals to Central Office to be retained for 5 years, then destroy by shredding.

| DOH-159.         | TRANSFER VERIFICATION OF CERTIFICATION (VOC): | 07-039        |

This paper and electronic series includes e-mails with electronic transfers (VOC) and paper transfer (VOC) registers generated by the computer for transfer out-of-state or to other WIC agencies such as ITO’s (Indian Tribal Offices). Information may include: date issued, participant’s name, income, nutrition risk code, expiration date, and signature line. This record series is used for reference and documentation purposes.

**RETENTION:** Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-311)
### DOH-160. TUBERCULOSIS CASE CHART-FIELD OFFICE:

This paper series is arranged alphabetically and contains tuberculosis medical information on reported cases. Information may include the following forms: TB Case Report Form (HS420), TB Case Summary (HS421), Patient TB Treatment Summary (HS422), Tuberculosis Case Side Effects Assessment Form (HS423), TB Disease–Patient Education and Consent Form (HS424), TB Case Progress Notes (HS425), Monthly TB Case Progress Report (HS426), Agreement for Administration of Department of Health TB Medication in Facilities for Treatment of Tuberculosis Disease (HS427), TB Contact Investigation Worksheet (HS428), written prescription, physician orders, laboratory reports, chest X-ray reports, correspondence/E-mails, Report of Services (HS346), Authorization for Services (HS348), Report of CHN Services (HS168), and refugee paperwork. This record series is used to document treatment and services provided as part of the investigation and management of the patient.

**RETENTION:** Retain in field office 5 years, then transfer to Central Office to be merged and maintained with “Tuberculosis Case Chart”.

DOH-161. **TUBERCULOSIS LABORATORY REPORTS, STATE PUBLIC HEALTH LABORATORY:**

This series is arranged alphabetically and contains the laboratory report for tuberculosis testing from the State Public Health Laboratory. Information may include: patient name, patient date of birth, specimen type, specimen collection date, and test results. This information is maintained to conduct surveillance for active tuberculosis cases. Positive results will be retained in the “Tuberculosis Case Chart”. Negative results for patient diagnosed with latent tuberculosis infection will be retained in the “Latent Tuberculosis Patient Record”.

**RETENTION:** Retain negative results up to 6 months in the field office, then destroy by shredding.

(Note: Previous record series number was HEA-308)

DOH-162. **TUBERCULOSIS REACTOR CARD (HS402)-FIELD OFFICE:**

This paper and database series is arranged alphabetically and contains latent tuberculosis infection information on the patient. Information may include: tuberculin skin test, chest X-ray, treatment, medication side effects, progress notes, Tuberculosis Reactor Card (HS402), Extra Progress Notes (HS403), physician orders, and prescriptions. This record series is used to document treatment and medical management of the patient.

**RETENTION:** Retain original in the field office 1 year past closure, then transfer to Central Office for inclusion in TB registry.

**REFERENCE COPIES:** Retain 1 year in field office, then destroy by shredding.
DOH-163. **TUBERCULOSIS X-RAYS:**

This series is arranged chronologically by calendar year and contains X-rays film for persons evaluated for tuberculosis. This record series is maintained as medical information for reference by physicians and other health care professionals.

**RETENTION:** Retain in field office 5 years, then destroy.

(Note: Contact the Records Management Program in Pierre for assistance in the proper destruction.)

(Note: Previous record series number was HEA-309)

DOH-164. **VACCINE ADMINISTRATION RECORD:**

This series is arranged alphabetically by client name and is used to record all immunizations and tuberculin skin tests administered to the clients. Information may include: client name, date of birth, address, telephone number, parent’s name, doctor’s name, type of immunization given, date of immunization, vaccine manufacturer, vaccine lot number, site of immunization, consent to provide immunization, and initials and signature of vaccine administrator. This series serves as a history for each client of the various types of immunizations administered by Community Health Services. Also serves as record for parent/client of SDIIS documentation of immunizations. This record series is maintained pursuant to ARSD 44:04:09:08.

**RETENTION:** Retain 1 year in office, then microfilm. Maintain film 2 years past the age of majority or 10 years past the last date of service, whichever longer, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-310)
### DOH-166. WIC MONTHLY EXPENDITURE REPORTS:

This paper or electronic series contains information completed by the WIC local agency listing county contract expenditures incurred during the month and request for reimbursement from the State Office. Information may include: county name, contract amount, contract number, month, expenditures, total amount, and authorized signatures. The State Department of Health maintains the original. The copy is used to ensure receipt of the original by the State Office.

**RETENTION:** Retain 1 year in office, then destroy.

(Note: Previous record series number was HEA-313)
DOH-167. **ADMINISTRATIVE REFERENCE FILES:**

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)

DOH-168. **ALL WOMEN COUNT! PARTICIPANT FORMS:**

This series contains the forms filled out by clinic providers for each woman whose screening is paid for by the program. Information may include: client demographic information, diagnosis, and treatment history. This record series is used for administrative and management purposes. Audit information is maintained by the Finance Office.

**RETENTION:** PAPER FORMS: Scan daily and destroy provided scanned images have been verified to be accurate.

DATABASE: Update quarterly on State server. Destroy updates after 2 years provided superseded or obsolete.

ELECTRONIC IMAGES: Retain current. Destroy superseded or obsolete.

Information may include: client’s name, provider name, amount billed, and amount paid. This record series is used for program management purposes.

**RETENTION:** Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years.

(Note: Previous record series number was HEA-316)
DOH-170. CONTINUING EDUCATION DOCUMENTATION:

This series is arranged alphabetically by profession and contains documentation as required by continuing education credit grantors. Information may include: applications for continuing education credit, disclosure forms, letters of approval, sign-in sheets and/or lists of participants of actives. Professions include: Physicians Assistant, Registered Nurse, Registered Pharmacist, and Social Worker. This record series is maintained for administrative and legal purposes.

RETENTION: PHYSICIANS ASSISTANT: Retain proof of a PA’s participation for 7 years after class, workshop, or conference, then destroy.

REGISTERED NURSE: Retain records for each activity for 5 years in a secure and confidential manner in accordance with the American Nurses Credentialing Center’s Commission on accreditation’s regulations, then destroy.

REGISTERED PHARMACISTS: Retain 4 years after class, workshop, or conference, then destroy.

SOCIAL WORKER: Retain list of participants for 5 years after class, workshop, or conference, then destroy.

(Note: Previous record series number was HEA-346)
DOH-28. PATHOLOGY REPORTS:

This record series is arranged chronologically by pathology laboratory, then alphabetically within by patient’s last name and contains information regarding reportable cancer cases. Information may include: patient demographics, medical provider, cancer site, clinical history, diagnosis, gross description, microscopic description, and medical treatment. This record series is used for cancer case findings.

RETENTION: Retain in Cancer Registry office for 1 year, then destroy by shredding.

</table>
DOH-176. ESTABLISHMENT LICENSE PRINTOUTS:

This annual computer printout contains the list of licensed food, lodging, and campground establishments. Information may include: name of establishment, address, telephone number, license number, and type of license. This record series is maintained as a quick reference to establishment license information.

RETENTION: Retain 4 years in office, then destroy.

(Note: Consider receiving data on computer output microfiche (COM) instead of paper and maintaining fiche in office the entire 4 years prior to disposal.)

(Note: Previous record series number was HEA-179)

DOH-177. INVESTIGATION FILES (MISCELLANEOUS):

This series is arranged alphabetically by town or area and serves as a central depository for environmental health problems complaint investigations. The investigations cover complaints regarding situations which are licensed by the Health Department, but may pose a detrimental health risk. Information may include: correspondence from the person(s) filing the initial complaint, investigation narrative, and recommendations for action sent to the local governing authorities (county, township, or city). This record series is maintained to document the complaint investigation and recommendations made to local authorities.

RETENTION: Retain 2 years in office, then destroy.

(Note: Previous record series number was HEA-180)
DOH-178. TEMPORARY ESTABLISHMENT FILES:

This series is arranged numerically and contains food service inspections and complaint inspection information for establishments such as bars, lodging, campgrounds, and food service locations with temporary licenses. Information may include: establishment name, owner’s name, complaint(s), temporary license applications, inspection reports, related correspondence, corrective action recommendations and action taken, license revocation information, and litigation proceedings. This record series is maintained to document on-site complaint inspections, and for litigation purposes.

RETENTION: Retain 2 years in office, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-181)
DOH-179. ADMINISTRATIVE REFERENCE FILES:

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

RETENTION: Retain current in office. Destroy superseded or obsolete.

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)

DOH-180. APPLICATIONS, CONTROLLED SUBSTANCE REGISTRANTS:

This series is arranged alphabetically and contains applications which are pending Health Department registration action. Information may include: registrant’s name, address, telephone number, date, business activity, experience, training, other state or national licenses, certifications or registrations held, drug schedule, signatures and registration number (if approved). This record series is maintained to monitor the status of applications submitted to the division. Successful registration applications are transferred to their respective “Registration Files, Pharmacies.”

RETENTION: Retain unsuccessful applications 1 year in office, then transfer to storage for 2 years. Destroy after 3 years.

(Note: Previous record series number was HEA-130)
DOH-181. ARCHITECTURAL DRAWING LOGS:

This log is arranged alphabetically by facility name and provides an inventory of architectural blueprints and other scale drawings of South Dakota health care facilities. Information may include: name, address, where the plans are stored in this office, construction plan numbers, and construction dates. This record series is maintained as a quick reference to medical facility architectural construction projects.

RETENTION: Retain current in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-131)

DOH-182. ARCHITECTURAL DRAWINGS:

This series is arranged alphabetically by building name and contains blueprints and other scale drawings of the health care facility construction or remodeling projects. Information may include: building name, type of construction, cost, bids, specifications, correspondence, status of construction, and preliminary, on-site, and final inspection reports. The information is reviewed to insure compliance with state and federal building and medical codes, for performing on-site inspections during actual construction phase, and to provide history of all building construction and remodeling projects.

RETENTION: Retain active in office on paper. Microfilm after final inspection and maintain film in office for life of building. Destroy when building is demolished.

(Note: Microfilm subject to archival screening prior to disposal.)

(Note: Previous record series number was HEA-132)
DOH-183. **AUDITS, CONTROLLED SUBSTANCE REGISTRANTS:**

This series is arranged alphabetically by registrant, then chronologically and contains audits of drug records. Information may include: registrant name, audit date, prescription numbers, patient name, prescription date, drug code, and auditor’s comments. This record series is maintained to comply with federal regulation requiring audits of prescription drugs to detect possible problems.

**RETENTION:** Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-133)

DOH-184. **BONDS:**

This series is arranged alphabetically by facility and contains a copy of bonds as surety for nursing homes that handle money for residents. Information may include: name of facility or operating group, value of bond, bonding company name, effective date(s) of the bond, and copies of audit reports. This record series is maintained for documentation purposes. The Department of Social Services uses copies of this information when conducting audits of the nursing homes.

**RETENTION:** Retain bonds current in office, then transfer to storage for 3 years. Destroy 3 years after expired.

Retain audit reports 3 years in office, then destroy.

(Note: Consider microfilming the bonds to provide vital record protection.)

(Note: Previous record series number was HEA-134)

</tbody>
</table>
DOH-187. COMPLAINTS, MEDICAL FACILITIES:

This series is arranged chronologically by facility and contains correspondence, complaint logs, and Nurses Aides Abuse Case Files. Correspondence is received from either the general public, other agencies or initiated by the program concerning problems with various South Dakota Health Care Facilities. Those not facility specific are filed under miscellaneous complaints. Information may include: nature of the complaint, related correspondence, investigation of the allegation, conclusion of the investigation, and related materials. Complaint Logs contain a chronological listing of general types of facilities of all complaints received by the department related to medical facilities. Information may include: control number assigned for complaint management system, facility, nature of complaint, whether valid, referrals, and disposition of complaint. They are used by the department to determine if a complaint is substantiated, and, if so, to make corrective action; to determine the possibility of deficiency trends developing in certain facilities, and for federal audit purposes. Nurses Aides Abuse Case Files are arranged alphabetically and contain correspondence received from nursing facilities. Information may include: letters from facilities, individuals, or agencies, outlining allegations of abuse, neglect or misappropriation by a certified Nurses Aides, investigation of the allegations, conclusion of the investigation, statements from witnesses, copies of court records about charges filed and convictions, letters to the facilities and the Nurses Aides involved, and letters to the South Dakota Board of Nursing about Nurses Aides. These records are used by the department to make a decision about placing information on the Nurses Aides Registry maintained by the South Dakota Board of Nursing and for federal audit purposes.

RETENTION: Retain 3 years in office, then transfer to storage for 2 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-137)
DOH-188. CORRESPONDENCE, HCFA:

This series is arranged chronologically and contains both copies of letters and memorandums sent to and the originals of letters and memorandums received from the Health Care Financing Administration (HCFA). This record series is used for occasional reference and documentation.

RETENTION: Retain 1 year in office, then transfer to storage for 3 years. Destroy after 4 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: When litigation, claims, or audits are complete maintain for an additional 3 years, then destroy.)

(Note: Previous record series number was HEA-138)

DOH-189. DIRECTORY, LICENSED AND CERTIFIED FACILITIES:

This computer generated directory published quarterly by the department is arranged alphabetically and contains lists of hospitals, nursing homes, and other licensed and certified facilities/suppliers in the state. Information may include, but is not limited to: facility name, address, administrator or contact person, licensure classification, number of beds, provider number, and other related data. This record series is maintained for quick reference to names and addresses of health facilities and personnel. The superseded directories are microfilmed and maintained for historical reference purposes.

RETENTION: Retain current in office. Microfilm superseded or obsolete directories and maintain film permanently.

(Note: Previous record series number was HEA-139)
DOH-190. DRUG DESTRUCTION RECORDS:

This series is arranged chronologically and contains a list of drugs destroyed by each registrant in South Dakota. Information may include: registrant identification, drugs destroyed list, method of destruction, and signature of witness and person in charge of destruction process. This record series is maintained to document the destruction of controlled substance drugs, for reference as background information, investigation reports, and for federal audit purposes.

RETENTION: Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-140)

DOH-191. FDA INSPECTION REPORTS:

This series is arranged alphabetically and contains the report generated as a result of the inspection of mammography machines conducted under contractual arrangement with the Food and Drug Administration (FDA). Information may include: name of facility, date of inspection, results of inspection, and correspondence. This record series is maintained for compliance purposes.

RETENTION: Retain copies of last two surveys in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-141)
### DOH-192. FIRE INCIDENT REPORT LOGS:

This series is arranged chronologically and contains information on fires which occur in any medical facility. Information may include: date of fire, cause, extent of damage, injuries, and possible preventative practices. This record series is maintained to help prevent similar fires in the future, and for federal reporting when there has been a fire related death.

**RETENTION:** Retain the full log 5 years in office. Destroy 5 years after last entry.

(Note: Previous record series number was HEA-142)

### DOH-193. INSPECTION REPORTS, X-RAY EQUIPMENT:

This series is arranged alphabetically by city and type of facility and contains medical radiographic and dental X-ray equipment inspection reports. The inspections are done every three years. If the facility has a history of deficiencies the inspections are repeated more frequently. The information is recorded on Facility, Radiographic, Fluoroscopic, and Dental Survey report forms. Information may include: date, equipment location, equipment identification, radiation protection evaluations, deficiencies, recommendation for repairs or adjustments, and date and type of adjustment made. These inspections are required by federal and state regulations and are maintained to document that the inspections have been performed.

**RETENTION:** Retain last two inspections. Destroy previous inspections as they are replaced.

(Note: Previous record series number was HEA-143)
DOH-194. INVESTIGATION REPORTS, CONTROLLED SUBSTANCES:

This series is arranged chronologically and contains investigation reports concerning controlled substance registrants and individuals. Information on the investigation reports include: name, address, telephone number, suspected problems noted, investigation results, corrective actions suggested, follow-up investigations, and any other related information. This record series is maintained to document the investigation process and to initiate possible further action by this division.

RETENTION: Retain 3 years in office, then transfer to storage for 2 years. Destroy after 5 years.

(Note: Previous record series number was HEA-144)

DOH-195. LABORATORY FILES:

This series is arranged alphabetically by town and facility within each town and contains information regarding each laboratory. Information may include: application for certification, survey report forms, statement of deficiencies, plan of corrections, transmittals, and correspondence. Certification files serve as a history of the laboratory’s ability to meet federal requirements, and for federal audit purposes.

RETENTION: Retain 5 years in office, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-145)
DOH-196. LICENSE FILES, X-RAY FACILITIES:

This computer series is arranged by facility type and serves as the central depository for licensing and registration information for all medical and dental facilities X-ray equipment. Information includes, but is not limited to: name and address of facility, county, type of practice, type of equipment, manufacturer’s name, serial number, license number issued, issue date, and expiration date. The information is maintained on computer to document the license of X-ray equipment and to ensure compliance with adopted standards.

RETENTION: Retain current information on computer. Destroy superseded or obsolete.

(Note: Hard copy master log maintained for reference.)

(Note: Previous record series number was HEA-146)

DOH-197. MAMMOGRAPHY CERTIFICATION FILES:

This series is arranged alphabetically by town and contains information regarding the certification for Medicare. Information may include: application for Medicare participation, survey documents, statements of deficiencies and plans of correction, Medicare/Medicaid certification, transmittal, and correspondence. This record series is maintained for the administration of the Medicare program and to monitor mammography suppliers participating in the Medicare program prior to 10-01-94, when the authority for certification of these facilities was transferred from Medicare to FDA.

RETENTION: Retain 1 year in office, then transfer to storage for 2 years. Destroy after 3 years.

(Note: Previous record series number was HEA-147)
DOH-198. MEDICAL FACILITIES FILES:

This series is arranged alphabetically by town and facility type and serves as the central depository for all licensing and/or certification information for all facilities licensed or certified by this agency, and those facilities under contractual agreements with the agency. Licenses and/or certificates are renewed annually. Each file is divided into five sections:

1) The Licensure Section includes: applications, copies of lease agreements, management contracts, sales contracts, licenses issued to the facility, and correspondence.

2) The Certification Section includes: application for participation in Title 18/Title 19, survey report form, statement of deficiencies and plan of correction, Medicare/Medicaid certification and transmittal, and correspondence.

4) The Proposes Construction Section includes: plans, correspondence relating to plans and specifications of proposed construction, incidental drawings, and physical plant policies.

5) Accreditation Reports Section includes: copies of accreditation reports submitted by the facilities including physical plant, laboratory and ancillary services; focused reviews; correspondence relating to accreditation for deemed status for licensing; and Medicare certification. This record series is maintained to document compliance with rules and regulations concerning the license, certificates, or contractual agreements and for audit purposes.

RETENTION: Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

Retain Medicare/Medicaid certification and transmittal sheets for the length of time the facility is certified.

Retain Physical Plant related material for the life of the building on microfilm.

Retain last two Accreditation reports in office, then transfer to storage for 3 years. Destroy after 5 years.

(Note: Previous record series number was HEA-148)
DOH-199. **NATIONWIDE EVALUATION OF X-RAY TRENDS (NEXT)**

This series is arranged alphabetically by survey and contains South Dakota’s portion of Nationwide Evaluation of X-ray Trends (NEXT) for federal survey protocols. Information may include: facility data, equipment data, technique data, exposure data, beam data, and processing data. This information is maintained to document South Dakota’s portion of nationwide surveys and for review by the Governor’s clearinghouse for surveys questionnaires.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-149)

DOH-200. **POLICY INTERPRETATION, FEDERAL:**

This series is arranged chronologically and contains correspondence sent to and received from federal agencies regarding interpretation of federal policies and procedures. This information is used for documentation and for occasional reference purposes.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-150)
DOH-201. POLICY INTERPRETATION, STATE:

This series contains correspondence sent to and received from the Board of Nursing, the Board of Pharmacy, and the Department of Social Services regarding interpretation of policy and procedures. Information formats include: correspondence, minutes of meetings, and newsletters. This record series is used for documentation and for occasional reference purposes.

RETENTION: Retain current in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-151)
### DOH-202. PROFICIENCY EXAMINATION RESULTS, H.E.W.: 07-039

This confidential series is arranged chronologically and contains results of Health, Education, and Welfare proficiency examinations, which have been administered to South Dakota laboratory personnel. These federal examinations are no longer given, however the Health Department is required, to maintain the examination results for the individual’s entire career. Information for each individual includes: name, address, examination date, examination score, and related comments. This record series is maintained to document the skill level of persons working in South Dakota health laboratories, for reference to insure that each individual is qualified to work at the level for which each was hired, and to provide verification of examination results to other State Health Departments upon request.

**RETENTION:** Retain 40 years in office, then destroy.

(Note: Previous record series number was HEA-152)

### DOH-203. PROFICIENCY TESTING FILES, BLOOD BANK: 07-039

This series is arranged alphabetically by town and facility within each town and contains reports on proficiency testing surveys for blood banking conducted in medical facilities. The information, maintained for reference, is reviewed by surveyors prior to making recommendations to Health Certification Facility Agency (HCFA) on sanctions to be taken against a laboratory that fails to achieve a satisfactory grade. This information may also be reviewed by Food and Drug Administration (FDA) or HCFA representatives in the event of a suspected transfusion reaction that leads to patient injury or death.

**RETENTION:** Retain 5 years in office, then destroy.

(Note: Previous record series number was HEA-153)
DOH-204. PROFICIENCY TESTING FILES, GENERAL:

This microfilm series is arranged alphabetically by town and facility within each town and contains proficiency testing survey results for the specialties of chemistry, bacteriology, immunology, and hematology. Information, maintained for reference, is reviewed by surveyors prior to making recommendations to the Health Certification Facility Agency (HCFA) on sanctions to be taken against a laboratory for failure to attain a passing grade on the proficiency testing surveys.

RETENTION: Retain 2 years in office, then destroy.

(Note: Previous record series number was HEA-154)

DOH-205. QUARTERLY REPORTS, HCFA:

This series is arranged chronologically and contains copies of quarterly reports sent to the United States Department of Health and Human Services and the South Dakota Department of Social Services regarding Health Care Financing Administration (HCFA) Title 19 funds. Reports include: Quarterly Expenditure Reports, Workload Reports, Cumulative Expenditure Reports, Staffing and Training Reports, and Home Health Agency Reports. This record series is maintained for reporting program activities and expenditures, and for federal audit purposes.

RETENTION: Retain 4 years in office, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-155)
DOH-206. RADIATION INFORMATION FILES:

This series is divided by topic and contains radiation information used during radiation investigations. Information may include, but is not limited to: Nuclear Regulatory Commission, Federal Emergency Management Act (FEMA), Conference of Radiation Control Program Directors (CRCPD), Food and Drug Administration (FDA) and Radon gas correspondence, testing procedure manuals, and radiation research data. This record series is maintained for reference to determine background statistics and testing procedures to use during investigations.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-156)
DOH-207. REFERENCE FILES, PHYSICAL PLANTS: 07-039

This series is arranged alphabetically by topic and contains reference material used during facility inspections concerning physical plant construction and remodeling projects. Information may include: electrical specifications and evaluations, copies of the state plumbing codes, copies of ventilation codes, sanitation guidelines, hospital plan rules and regulations, South Dakota Annual Hospital Reports, Medical Health Facilities Supplemental to the State Health Plan, Annual Nursing Home Reports, and fire evaluation manuals. This record series is maintained for convenience of reference about each subject during facility inspections.

RETENTION: Retain current in office. Destroy superseded or obsolete.

(Note: Cull files at least once each year to avoid a build-up of superseded or obsolete material.)

(Note: Previous record series number was HEA-157)
### DOH-208. REFERENCE FILES, RADIOLOGY:

This series is arranged alphabetically by topic or subject and contains reference information used by the radiation source licensing program personnel. Information may include, but is not limited to: federal manuals, other states X-ray manuals, federal radiology research reports, new X-ray equipment brochures, rules and regulations for South Dakota’s radiation source inspections, training manuals for new X-ray inspectors, guidelines for inspections, and continuing education course materials. This record series is maintained for convenience of reference about each subject during radiation source inspections.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Cull files at least once a year to avoid build-up of superseded or obsolete material.)

(Note: Previous record series number was HEA-158)
DOH-209. REFERENCE FILES, SUBSTANCE CONTROL:

This series is arranged alphabetically by topic or subject and contains reference information used during the daily operation of the pharmacy inspection program. Information may include, but is not limited to: continuing education courses available, drug overuse, drugstore effects, management institute, copies of pharmacy program rules and regulations, and pharmacy closings. This record series is maintained for convenience of reference about each subject during pharmacy inspections.

RETENTION: Retain current in office. Destroy superseded or obsolete.

(Note: Cull files at least once a year to avoid build-up of superseded or obsolete material.)

(Note: Previous record series number was HEA-159)
### DOH-210. REGISTRATION FILES, CONTROLLED SUBSTANCE REGISTRANTS:

This series is arranged alphabetically and contains registration information for each registrant in South Dakota. Information may include: name, address, first application date, annual renewal applications, professional license number, investigation reports, letter of reprimand or commendation, registration number (if approved), and other related materials. This record series is maintained to document the registration of all registrants operating in South Dakota, and for annual registration renewal purposes.

**RETENTION:** Retain active in office. Transfer inactive to storage for 4 years. Destroy 4 years after inactive.

(Note: Previous record series number was HEA-160)

### DOH-211. RESIDENTIAL LIVING CENTERS:

This ring binder series is arranged alphabetically by town and contains Residential Living Centers’ registrations received by calendar year. Information may include: name of the Residential Living Center and correspondence. This record series is maintained for inspection purposes.

**RETENTION:** Retain 3 years in office, then transfer to storage for 2 years. Destroy after 5 years.

(Note: Previous record series number was HEA-161)
DOH-212. STATE AGENCY EVALUATION PROGRAM (SAEP):

This semiannual series is arranged chronologically and contains state agency evaluation program reports and the required Health Department responses regarding the operation of Medicare/Medicaid programs. This record series is maintained for reporting to the Health Care Financing Administration, and to document compliance with contractual agreements with HCFA and the South Department of Social Services.

**RETENTION:** Retain 4 years in office, then destroy provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-162)

DOH-213. SURVEY LOGS:

These weekly binder logs are arranged chronologically, then by facility name and are used to monitor the status of surveys conducted by licensure and certification personnel on health care and medical facilities. Facilities may include: hospitals, home health care agencies, rural health clinics, CLIA laboratories, and Title XIX agencies. Information may include: name of surveyor, date of inspection, rough drafts, and final survey reports. This record series is maintained to document the status of health care facility surveys.

**RETENTION:** Retain current on database. Completed surveys are downloaded to a hard copy and filed in office with facilities files.

(Note: Previous record series number was HEA-163)
DOH-214. X-RAY AND RADIATION INSPECTION EQUIPMENT LOGS:

This computer inventory and printouts are arranged chronologically and lists radiation inspection equipment received from the federal government and state owned equipment. The equipment is used for inspection of X-ray and other radiation producing equipment. This record series is maintained for program reference and to verify equipment currently in the department’s possession.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Previously this entire file was removed by federal auditors at the time of federal audits.)

(Note: Previous record series number was HEA-164)
DOH-215. **ADMINISTRATIVE REFERENCE FILES:**

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)

DOH-216. **CORRESPONDENCE, FEDERAL GRANT:**

This series is arranged chronologically and contains both copies and originals of letters and memorandums sent to and received regarding all bioterrorism grants. This records series is used to answer all questions from the federal government regarding the bioterrorism activities.

**RETENTION:** Retain 2 years in office, then transfer to storage for 3 years. Destroy after 5 years provided all litigation, claims, and audit findings involving the records have been resolved and final action has been taken.

(Note: Previous record series number was HEA-336)

This paper and database series is arranged alphabetically and by location and contains updated information regarding various groups that could help in a time of a disaster. Information may include: names, addresses, telephone numbers, occupations, contact people, and facility name. An updated computer spreadsheet is kept as well as a hard copy in the file. This record series is used in order to contact necessary entities in case of a disaster as directed by the grant.

**RETENTION:** DATABASE: Retain information current. Delete superseded or obsolete information.

PAPER: Retain 1 year in office, then destroy.

(Note: Previous record series number was HEA-337)
DOH-218. HOSPITAL PREPAREDNESS RECORDS:

This computer and paper series is arranged alphabetically and contains facility bioterrorism plans of action should a disaster take place in their location. Information may include: responsibilities of emergency facilities/groups, what protocol to follow for each, where patients would be housed, who would alert medical responders, and where emergency equipment is housed and the process of accessing it. This record series is used for reference purposes.

RETENTION: Retain current plans and need assessments in office. Destroy superseded or obsolete.

(Note: Previous record series number was HEA-339)

DOH-219. NEEDS ASSESSMENTS AND LDAP MATERIALS:

This series is arranged chronologically and contains documents received from each facility regarding information on needs assessments and the Lightweight Directory Access Protocol (LDAP), which is a computerized health directory. Information may include: specific needs within a community, who to contact, and what responsibilities belong to whom. This record series is used to insure the community, and state and federal governments work together in case there is bioterrorism action taken.

RETENTION: Retain 2 years in office, then transfer to storage for 1 year. Destroy after 3 years.

(Note: Previous record series number was HEA-340)

**DOH-221. ADMINISTRATIVE REFERENCE FILES:**

This series is arranged alphabetically by subject matter and contains information used in the daily administration of the program or office. Information may include, but is not limited to: budget, equipment, inventory, legislation, organization/association, general correspondence and property management information; monthly reports; research materials; policies and procedures; reference manuals; logs; rules and regulations; mailing lists; and other related information. This record series is maintained for reference purposes.

**RETENTION:** Retain current in office. Destroy superseded or obsolete.

(Note: Cull files on a yearly basis to avoid build-up of superseded or obsolete materials.)

**DOH-222. DEMOGRAPHICS STUDIES FILES:**

This series is arranged alphabetically by town and contains demographic information for South Dakota Communities. Information may include: studies of human characteristics as they pertain to size, growth, density, distribution, health care facilities, and health care professionals. This record series is maintained for reference when answering questions regarding the need for health care facilities or health care professionals.

**RETENTION:** Retain 3 years in office, then destroy.

(Note: Subject to archival screening prior to disposal.)

(Note: Previous record series number was HEA-165)
DOH-223. HEALTH PROFESSION SHORTAGE DETERMINATION: 07-039

This series is arranged geographically and alphabetically by topic and contains information on the location of health professionals within South Dakota. Information may include: federal health professions student loan forgiveness program information, health manpower shortage area designations, physician’s assistant program participant information, and community health services program and project information. This record series is maintained for reference to determine areas in South Dakota in need of health personnel and is used as the basis for reimbursing physicians for tuition in specified areas where shortage exist.

**RETENTION:** Retain 5 years in office, then destroy.

(Note: Subject to archival screening prior to disposal.)

(Note: Previous record series number was HEA-166)
