

Capitol Bldg. Dome Window Replacement, 2019

PM: Kristine Schlomer

A/E: Brosz Engineering

Prime: Mid-Continental
Restoration/Oahe Glass

GMP: \$177,732.00

CCO's: none

Description: The windows located in the dome of the Capitol Bldg. were original to the building, which was completed in 1910. Utilizing the scaffolding that was installed for the tuckpointing, we installed new windows in front of the existing ones. This allowed us to maintain the historical integrity of the building while improving the envelope.
